Dr. M. A. Stein, *Registrar.*

Babu Chandra Nath, Mittra, *Assistant Registrar.*

1. *Proxy Papers.*—The Registrar laid on the table the Proxy Papers received from absent members.

2. *Middle School Examiners.*—The first proposal by the Syndicate was then read—

> *That the list of Examiners for the Middle School Examination,* 1891, *recommended by the Syndicate* (see *paragraphs* 3 *and* 4 *of Proceedings dated* 27*th May and* 30*th October* 1890, *respectively, with amendment of* 8*th November* 1890) *be approved.*

This was passed unanimously (see Appendix I).

3. *Arts Examiners.*—The next proposal was—

> *That the list of Examiners for the Arts Examinations of* 1891, *in subjects other than Oriental languages, as recommended by the Syndicate* (see *paragraphs* 2a, 2g *and* 4, 5, 7 *of the Proceedings dated* 19*th June,* 30*th October and* 4*th November* 1890, *respectively*), *be sanctioned.*

The Vice-Chancellor having explained in detail the changes which had become necessary in the list of Examiners since the list was first submitted by the Arts Faculty, the above resolution was passed and the list of Examiners was sanctioned as given in Appendix II.

4. *Examiners in Oriental Languages.*—The following proposal—

That the list of Examiners for the Oriental Faculty Examinations and for the Arts Examinations in Oriental Languages for 1891, as recommended by the Syndicate (vide *paragraphs 3 and 4 of the Proceedings dated 19th June and 8th November 1890*), *be approved,*

was also agreed to (see Appendix II) after the Vice-Chancellor had fully explained the changes which had become necessary since the first nomination of examiners had been approved by the Syndicate.

5. *Medical Examiners.*—The next proposal—

That the list of the Examiners for the First and Second Examinations for Licentiate and Bachelor in Medicine for 1891 recommended by the Syndicate (see *paragraph 14 d of Proceedings dated 27th May 1890*) *be approved,*

was then read and passed (see Appendix III).

6. *M. A. Philosophy Course.*—The next proposal was—

That the Course for the M. A. Examination in Philosophy of 1891 and 1892 as recommended by the Syndicate (vide *paragraph 2b of Proceedings dated 19th June 1890*) *be adopted.*

The attention of the meeting was called to the opinion expressed by the Syndicate in paragraph 2b of its Proceedings of the 19th June 1890 regarding the unsuitability of Austin's Jurisprudence as a text-book for this examination, and to the subsequent resolution of the Arts Faculty (dated 12th July 1890) proposing that the alternative subject of Jurisprudence be omitted wholly from the Philosophical M. A. Course. The Vice-Chancellor pointed out that this latter proposal could not come before the Senate till it had been embodied in a resolution detailing the formal changes required in the existing Examination Regulations, which would also have to receive the sanction of the Government of India.

Lala Madan Gopal, M. A., then proposed an amendment, which was seconded by Babu P. C. Chatterji, to the effect that for the Examinations of 1891 and 1892, Dr. Rattigan's Text-book of Jurisprudence be substituted for Austin's "Jurisprudence," and Sheldon "Amos's Science of Law."

After Mr. Robertson and Dr. Ewing had spoken in favor of the retention of the text-books proposed by the Sub-Committee of the Arts Faculty, which had framed the proposed Course of Reading, Dr. Ewing, wishing it to be understood at the same time that he did not profess to have any personal knowledge of the text-books in question or any predilection in favor of one rather than another, the above amendment was put to the vote and carried by a large majority.

The original resolution with the above amendment was then put from the chair and passed (see Appendix IV).

7. *Modification of B. A. Examination Regulations in Science.*—The next proposal was then read—

That the following proposals of the Syndicate regarding changes in the B. A. Examination Rules (vide *paragraph 11 of Proceedings dated 19th June 1890*) *be adopted :—*

I.—That Physics and Chemistry be taken as separate subjects.

II.—That the text-books be as follows :—

(a) *Chemistry.—The Organic and Inorganic portions as in Roscoe* (*Lessons in Elementary Chemistry*).

(*The Practical Part of the Examination will be—*

1. *Preliminary Analysis by dry way.*

2. *One acid and one base in wet way.*)

(b) Physics and Practical Physics.—The whole of Ganot.

The text-books are supposed to indicate merely the scope of teaching and examination.

III.—That the marks for the Practical Examination be increased to 50, *the number assigned to the written being* 100.

The Vice-Chancellor in putting the above resolution to the meeting pointed out that as the changes above proposed required the sanction of the Government of India, it would be necessary to have them formally embodied in the Examination Regulations and thereafter again submitted in that final form to the Senate for submission to the Governor-General in Council.

Mr. Sime, M. A., suggested as a verbal alteration that the word "recommended" be inserted after "text-books" in the first line of proposal II.

The resolution with the above amendment having been put from the chair was passed unanimously.

8. *Revised Arts and Oriental Examination Regulations.*—In putting forward the next resolution—

That the Regulations for the Entrance and Intermediate Examinations of the Arts and Oriental Faculties and the B. A. and M. A., B. O. L. and M. O. L. Examinations, as revised by the Syndicate (see *Proceedings dated* 8th *November* 1890) *under Senate Resolution of* 17th *June* 1890, *be sanctioned, and that the Syndicate be authorized to affix the common seal of the University to the same,*

the Vice-Chancellor drew the special attention of the meeting to the provisos added by the Syndicate in paragraph 7 of the Regulations for the B. A. and B. O. L. Examinations regarding the pass percentages required from candidates taking up both Arabic and Persian in these Examinations.

The above resolution was then passed unanimously and the revised regulations sanctioned as given in Appendix V.

9. *Revised Middle School Examination Regulations.*—The next proposal—

That the Regulations for the Middle School Examination as revised by the Syndicate (see *Proceedings,* 8th *November* 1890) *under Senate Resolution of* 17th *June* 1890 *be sanctioned,*

was then read and passed without discussion (see Appendix VI).

10. *Affixing of Common Seal.*—The following resolution—

That the Syndicate be authorized to affix the Common Seal of the University to the following :—

(1). *Regulations regarding the appointment, duties and remuneration of Examiners ;*

(2). *Revised Rules for the Award of College Scholarships ;*

(3). *Revised Rule (paragraph* 35) *regarding grant of leave to Registrar ;*

(4). *Diplomas of Graduates (Honoris Causâ and Ordinary) for the year* 1890 ;

(5). *Revised Forms of Licenses in Medicine and Surgery ;*

was also passed unanimously.

11. *Adjustment of Trust Accounts.*—The tenth proposal of the Syndicate was then read—

That the Report submitted by the Sub-Committee appointed to consider the state of the Trust and Endowment Funds of the University be accepted, and that the following proposals of the Syndicate on the same be adopted (see *Proceedings dated* 21st *June* 1890) :—

(a) *That the principle, recommended by the Sub-Committee for the adjustment of the special Trust Accounts,* viz., *that the University is not to be held responsible for the administration of the Trust Funds by the late Panjab University College prior to the* 19th *October* 1882, *be adopted ;*

(*b*) *That the amount shown in Appendix I of the Sub-Committee's R (Rs. 6,145-1-8) as being due to the special Trust Accounts up to 31st December 1889 be repaid to the various Trust Accounts from balance available in the Funded Account ;*

(*c*) *That the other recommendations contained in the Sub-Committee's Re be sanctioned ;*

(*d*) *That in future the income of the General Endowment Fund be consi available for the purposes of the Current Account, and be carried credit of that Account in the Annual Budget.*

The Vice-Chancellor in bringing forward this Resolution explained the great importa of having the question of the Trust and Endowment Funds finally settled, and he proceeded to explain in detail the effect of each sub-proposal as given above and the grou upon which the Sub-Committee had based its recommendations. After some discussion regard to sub-proposal (*a*), in the course of which the Vice-Chancellor specially urged necessity of keeping the question of the liability of the University for the administratio Trust Funds by the Panjab University College entirely separate from any considera of the amount of the repayments which might be involved by the settlement of that quest Babu P. C. Chatterji, M. A., B. L., and Lala Madan Gopal, M. A., expressed their entire agreem with the principle set forth by the Sub-Committee for the adjustment of the Trust Accou Each proposal of the Syndicate was then separately put to the vote. Proposals *a* a were carried unanimously.

Babu P. C. Chatterji, M. A., B. L., proposed, and Lala Madan Gopal, M. A., seconded, amendment that the words " with effect from the 1st January 1890 " be added to propos This amendment was adopted by the Senate.

After the Vice-Chancellor had explained the way in which it had now the first time become possible to ascertain with exactness the amount of the sur forming the General Endowment Fund of the University, proposal *d* was also passed.

The whole of the Resolution as given above, with the proposal *c* in its amended fo was then put from the chair and carried *nem. contra*. (See Appendix VII.)

12. *Jullundur Medical Readership.*—At the request of Dr. Perry (who intima that he would be obliged to leave very soon) the Vice-Chancellor asked the Senate's p mission to take up next the sixteenth and eighteenth proposals of the Syndicate. T sixteenth proposal was then read—

(*a*) *That the following proposal contained in the resolution of the Jullund District Board, dated 22nd May 1890, with regard to the Jullund Medical Readership, be accepted :—*

" *The Board agreed to pay the grant of Rs. 1,000 per annum to the University on the fo ing condition proposed by the Registrar :—*

" *That the Medical stipends of Rs. 30 per mensem paid previous to 1889 be contin and that the Reader's pay be provided from the remainder of the grant.*"

(*b*) *That the present incumbent of the Readership be paid for the whole term his appointment at the rate of Rs. 1,000 per annum.*

Some discussion arose with regard to part (*b*) of the Syndicate's proposal, in the course which special reference was made by the Vice-Chancellor to the fact that on account of Jullundur District Board having withheld in 1889-90 the annual subscription forming only endowment for this Readership, the Syndicate had been compelled to direct prese incumbent to discontinue his work from the 1st March 1890, and no provision had accord ingly been made in the current University Budget beyond that date.

Upon inquiry from Babu Brij Lal Ghose, who was present, he was understood to that apart from editing the Medical Gazette he had performed no services as Jullund Medical Reader since the 1st March 1890.

The Vice-Chancellor thereupon left it to the meeting to say whether the incumb could equitably expect his salary for the period that no work had been performed by him.

Babu K. P. Roy thought that as the incumbent had been originally appointed for two years, it was not open to the Syndicate to terminate his services earlier, and that he was consequently legally entitled to his salary for the whole period, irrespective of work performed.

Dr. Orbison considered that the incumbent should not receive salary for work not performed.

After some further discussion the proposals of the Syndicate were sanctioned, with the addition of the words to the last para. "and that the necessary provisions be made in the budget of the present year."

13. *Proviso proposed in Regulations for L. M. S. Examination.*—The eighteenth proposal was—

> *That the following proviso be added after the 13th para. of the Regulations for the Second Examination for Licentiate in Medicine and Surgery and that the Syndicate be authorized to affix the Common Seal of the University to the same:—*
>
> "*The changes, introduced by these Regulations into the curriculum and scope of the examination for the Licentiate in Medicine, will not affect those candidates who had completed their course of studies before these rules came into force.*"

The Vice-Chancellor in calling the attention of the meeting to the above proposal desired to point out that as the proposal had been passed by the Syndicate before his return from England, he was not sure whether the consequences that might arise from the passing of the proposed *proviso* had been fully considered at the time.

It appeared to him that to pass such a proviso without some limitation as to the time within which advantage could be taken of it by Medical students who had formerly failed to pass and had since then ceased to prosecute their studies was open to grave objection, and he would recommend a reconsideration of the subject by the Medical Faculty.

Dr. Perry also expressed his opinion that he could not approve of the proviso as it stood at present or without some limitation of the period for which it would be held to apply.

The Vice-Chancellor then proposed, with reference to the remarks of Dr. Perry, the following resolution:—

> "That the eighteenth proposal be referred back through the Syndicate to the Medical Faculty to consider whether the operation of the *proviso* should not be limited to those students only who had completed their studies within a definite time before the new Regulations came into force, and to consider also in this connection the rules on the same point in force in other Universities, including those in India."

This proposal was then put to the meeting and passed.

14. *Nomination of Fellows to Faculties.*—The next proposal—

> *That the undermentioned Fellows, newly appointed by His Honor the Chancellor, be nominated to the different Faculties entered against their names in the following list:—*

Dr. M. A. Stein	O	A	...
Babu Sasi Bhushan Mukerjee, M. A., B. L.	O	A	S
Mr. Kirthee Singh	...	A	S
Malik Roshan-ud-din Khan	O	...	...
Sahibzada Muhammad Obaidullah Khan	O	...	
Maulvi Muhammad Yusaf Ali Khan	O	A	...

O stands for Oriental Faculty; A for Arts; S for Science.

was then read and passed without discussion.

15. *Nomination of Syndics for* 1891.—The next proposal was—

That agreeably to the recommendation of the Syndicate (vide *Proceedings of the 4th and 8th November* 1890), *the nominations of members to represent the several Faculties on the Syndicate for* 1891, *as contained in the Proceedings of the Oriental, Arts, Medical and Science Faculties of the 8th and 1st November, 29th and 25th October* 1890, *respectively, be approved.*

The Vice-Chancellor in laying this proposal before the Senate brought to the notice of the meeting the subsequent nominations of Syndics made by the Law Faculty in its meeting of the 16th November 1890, and also the necessity of appointing a member to represent the Engineering Faculty on the Syndicate.

The nominations of members to represent the several Faculties on the Syndicate were then sanctioned as given in Appendix VIII.

16. *Superintendence of Law Examinations.*—The following proposal—

That Mr. R. Baker, Head Master, M. B. School, Lahore, be appointed Superintendent of the Law Examinations for 1890 (*see Syndicate Proceedings, dated 30th October* 1890).

was then read and passed.

17. *Superintendents for Middle School Examination.*—The next proposal was—

That the list of Superintendents for the Middle School Examination for 1891 *as recommended by the Syndicate (see Proceedings dated* 30*th October,* 4*th and* 8*th November* 1890*) be approved.*

The Vice-Chancellor having indicated some changes which had been made by the Syndicate in its meeting of the 26th November, the list of Superintendents for the Middle School Examination, 1891, was passed as shown in Appendix IX.

18. *Courses of Reading in English.*—The fifteenth proposal of the Syndicate was—

That the courses of reading in English for the Intermediate and B. A. Examinations for 1893, *as recommended in paragraph* 3 (*a*) *of the Syndicate Proceedings dated* 30*th October* 1890, *be confirmed.*

The Vice-Chancellor pointed out with reference to this proposal that the text-books proposed for 1893 were for the most part identical with those prescribed for the preceding years; and he doubted the advisability of perpetuating such a practice, which would have a tendency to encourage cram. He admitted that, in view of the fact that candidates who had failed in one year would probably be up for examination again in the following year, it would be a hardship to introduce a complete change in the text-books for each year. But he thought that at least a majority of such text-books should be changed. After some discussion, in which Mr. Sime, the Director of Public Instruction, Panjab, endorsed the Vice-Chancellor's opinion regarding the necessity of greater variation of the annual courses of reading, the Senate resolved, on the motion of the Vice-Chancellor, that the courses of Reading in English for 1893 be referred back to the Arts Faculty, through the Syndicate, to consider how far it appeared desirable to introduce changes in these courses, so as to avoid a large proportion of the text-books prescribed in the year from being identical with those prescribed for the previous year, and that distinct proposals be drawn up on the subject of future changes in the courses of reading.

19. *Addition to M. B. Examination Regulations.*—The seventeenth proposal by the Syndicate was then read—

That the following addition be made to paragraph 6 *of the rules for the First Examination for M.B., and that the Syndicate be authorized to affix the Common Seal of the University to the same :—*

The Examination in Comparative Anatomy for the M. B. Examination shall be divided into two parts :—

1st, that upon the Invertebrata.

2nd, do. do. Vertebrata.

Of the total number of marks given for the Examination, both written and oral, two-thirds will be assigned to the questions upon the Vertebrata and the remaining one-third to those upon the Invertebrata.

Moreover, the scope of the Examination upon the Invertebrata will include the following classes of that sub-kingdom, and each of these classes will be considered with reference to its general characters, and especially as regards the Morphology of selected types.

The following are the classes with their representative type or types :—

Porifera	...	*Common Sponge.*
Coelenterata	...	*Hydra : Sea Anemone.*
Echenodermata	...	*Starfish : Sea Cucumber : Sea Porcupine.*
Vermes	...	*The Entozoa.*
Anarthropoda	...	*Leech : Earthworm.*
Arthropoda	...	*Lobster : Spider : Cockroach : Centipede.*
Mollusca	...	*Oyster : Cattle fish : Snail.*

(*The Text-book recommended is, for the present, Nicholson's Student's Manual.*)

This was passed unanimously.

20. *Annual Convocation.*—The nineteenth proposal was—

That the Annual Convocation of the University be held on the 29th November 1890.

This was also approved.

21. *Conferring of Degrees.*—The next proposal was—

That the degrees, specified in Appendix I, be conferred upon the candidates named therein, who are duly certified to have passed the examinations, and fulfilled the other conditions necessary for the several degrees referred to, in accordance with the Statutes, Rules and Regulations now in force, and with the provision of Section 14 *of the Panjab University Act.*

This was agreed to (see Appendix X).

22. *Award of Prizes and Medals.*—The last proposal by the Syndicate—

That the various Medals, Scholarships and Special Prizes be awarded as specified in Appendix I,

was also passed with the additions made by the Syndicate in its meeting of the 26th November 1890 (see Appendix X.)

23. *Nawab Nawazish Ali Khan, Fellow, Panjab University.*—Before the meeting separated Babu P. C. Chatterji brought to the notice of the Senate the loss which the University had lately suffered by the death of Nawab Nawazish Ali Khan, and moved the following resolution :—

" The Senate records with deep regret the loss it has sustained by the death of the late Nawab Nawazish Ali Khan, Fellow of this University, who was a benefactor of the University and had also rendered valuable aid to the University on various occasions."

The Vice-Chancellor in seconding the proposed resolution warmly endorsed the remarks that had fallen from Babu P. C. Chatterji, and the resolution on being put to the meeting was passed unanimously ; and it was further resolved that a copy of the same be forwarded to the representative of the family of the late Nawab with an expression of the Senate's sympathy for the severe loss it had sustained.

APPENDIX VII.

Report of the Sub-Committee appointed by the Syndicate on the 22nd March 1890, to report on the state of the Trust and Endowment Funds of the Panjab University.

The condition of the Special Trusts and Endowments of the University has earnestly engaged the attention of the Syndicate for some considerable time past. Several Sub-Committees have been appointed to go into the accounts connected with these Trusts and Endowments, but from various causes none of these Sub-Committees has been able to meet and carry out the work entrusted to it, and as no members of the existing Syndicate were now willing to undertake the task, which was a troublesome one, and the matter was one which urgently called for settlement, the Vice-Chancellor and Assistant Registrar finally volunteered to submit a report on the general question. They were accordingly appointed a Sub-Committee for this purpose by a Resolution of the Syndicate of the 22nd March 1890.

The Sub-Committee, thus appointed, met at the Vice-Chancellor's house on the 26th March 1890 and on several subsequent dates, and carefully considered the Report which had been previously prepared by Mr. Larpent, the former Registrar of the University, and submitted to the Government, Panjab, with his letter No. 379, dated 25th February 1887. That Report goes so fully into the history of the various Trusts and Endowments connected with the University, that the Sub-Committee thinks it would be a work of supererogation to recapitulate the facts connected with the creation of these Trusts and Endowments, as they are fully and clearly stated in the Report in question. The Sub-Committee would, however, mention that it has satisfied itself as to the correctness of the sums entered therein as having been invested for each Trust or Endowment, and for which the University may be said to be accountable.

The Sub-Committee also carefully considered, in connection with Mr. Larpent's Report, the printed Proceedings of the Honorable the Lieutenant-Governor, No. 86, dated 22nd March 1887.

The first question which the Sub-Committee considered it necessary to determine was the principle upon which the account of each Trust or Endowment should be prepared. Mr. Larpent had prepared his account upon the understanding that the University had not only taken over all the property held by the Panjab University College at the date of the Incorporation of the University, subject to the existing Trusts, but had also become responsible for the former administration of those Trusts, to the extent, of having to make good the sums which had been wrongly appropriated to meet current expenditure from either the income, or, in some cases, from the capital of the Trusts in question, prior to the 14th October 1882, the date on which the University was incorporated by Act XIX of 1882. Sir Charles Aitchison, in his Review of Mr. Larpent's Report, commented (in para. 10) upon this view of the liabilities incurred by the University as follows :—

" Whether it is necessary that the Senate should hamper itself in its present administration by attempting to remedy the effects in the past of a vicious system of accounts, which had been in existence unquestioned for twelve years before the University was constituted,

which it naturally adopted in the form in which it inherited it, and which it put right
the future as soon as the fault in principle was discovered, is a question on which
Lieutenant-Governor is not at present in a position to decide. The probabilities are that
will have to do so. The Senate will, no doubt, do what is right and proper on receipt of
recommendations in each case of the Special Committee referred to in para. 3 of
Registrar's letter No. 379 of 25th February 1867."

The Special Committee here referred to was one of the several Sub-Committees mentioned at the beginning of this Memorandum as having been appointed for the purpose of reporting on the state of the Trust Funds, but which from various causes had not been able to enter upon their labors.

In the opinion of the present Sub-Committee the important question of principle above mentioned is one which is capable of being easily determined with reference to the provisions of Section 3 of the Act of Incorporation. By that section it is provided that "all the property, movable and immovable, *held at the date at which the University came into existence* by or in trust for the Panjab University College shall, *on that date*, become the property of the University to be administered by it for the purposes of the University subject to all existing trusts as to the manner in which, and the purposes to which, the property *or any part thereof* is to be applied."

It seems to the Sub-Committee that the section just quoted clearly defines both the rights acquired, and the obligations incurred, by the University on the *date of its incorporation*; and as the Sub-Committee construes this section, it means that the *only* property acquired (and which obviously could be acquired) was that held by or in trust for the Panjab University College *at the date at which the University came into existence*, and it is only *that* property which is subject to all existing trusts in the hands of the University.

If this interpretation of the section be correct, and the Sub-Committee itself sees no room for doubt on the point, it would appear to follow that the University cannot be legally responsible for the results of the administration of the Trust Funds by the late Panjab University College prior to its Incorporation. It did not inherit *en bloc* the liabilities of the Panjab University College, but only *such* liabilities as attached to the property of the various Trusts and Endowments which the University *acquired* under Section 3 of the Act of Incorporation, with reference to the conditions under which the said property was held in trust for future administration. An inheritance of the former kind would indeed have been a *damnosa hereditas*, which would have been quite opposed to the principle on which the modern law of inheritance is based, that the heir is only liable to the extent of the assets received by him for the liabilities of the last owner. The University is, no doubt, bound to hold the property it *actually* acquired subject to all existing trusts. But as these trusts are quite onerous enough to exhaust the future income of the Trust Funds, there is no surplus available for the discharge of the liabilities incurred under a past administration prior to the date of the incorporation of the University. These liabilities, therefore, the Sub-Committee thinks, the University has nothing to do with; and having regard to the present condition of its finances, the Sub-Committee is also of opinion that the University cannot afford to disregard the true economical principle of being just before it is generous. The present annual income from all sources is already insufficient to meet the ordinary expenditure, even when the latter has been reduced to the utmost limit compatible with the efficient discharge by the University of its obligations. Under these circumstances, the Sub-Committee cannot recommend that the University should burden itself with liabilities incurred by the late Panjab University College in the course of an administration extending over several years prior to the date of its own Incorporation.

Acting upon this view, the Sub-Committee has had the account of each Trust and Endowment Fund so prepared as to exhibit at a glance the liabilities incurred from the 14th October 1882 to the end of December 1889.

The Sub-Committee would recommend that a ledger be now opened on the basis of the actual condition of each Trust and Endowment on the 14th October 1882, and that such sums as have been wrongly applied to the Current Account out of the income of any such Trust or Endowment *from that date*, should be repaid to the same with as little delay as possible. The total sum which would thus have to be refunded by the University, and for which provision will have to be made in future Budgets, is Rs. 6,145-1-8.

The Sub-Committee considers that this sum could at once be repaid from the balance standing at credit in the General Funded Account. It will also be seen from the Abstract Account appended that there is a sum of Rs. 5,526-5-11 due by certain Trust Funds to the Funded and Current Accounts. There is no source available for the refund of the sums due to the General Funded Account, which must accordingly be written off. But the amount due to the Current Account may, in the opinion of the Sub-Committee, be recouped out of the balance standing at credit of the General Funded Account.

Lastly, the Sub-Committee would venture to draw the attention of the Syndicate to the fact that in some instances the income of Endowed Scholarships or Readerships is more than spent on the Scholarships and Readerships annually awarded. Such a practice, in the opinion of the Sub-Committee, should be discontinued. It is not right that the ordinary current income of the University, on which there are many other more pressing demands, should be utilized to enhance the value of Endowed Scholarships and Readerships, and the practice is also one which introduces confusion into the accounts. For both these reasons the Sub-Committee recommends that in future the expenditure on each Trust of Endowment Fund should be kept strictly within the actual income.

APPENDIX B.

TO THE

REPORT OF THE SUB-COMMITTEE.

NOTES ON THE TRUST FUNDS.

THE Funded Account consists of investments in Government Promissory Notes to the value of Rs. 4,13,500, of which Promissory Notes to the value of Rs. 2,23,900 belong to the Endowed Special Trusts.

2. The total sum now ascertained to be due to these Trusts from 14th October 18[illegible] to 31st December 1889 is Rs. 6,145-1-8, while the excess of expenditure incurred by the University on some of them during the same period is Rs. 5,526-5-11.

3. In Mr. Larpent's Abstract of Account attached to his printed Report, it is stated that a sum of Rs. 5,817-4-0, out of the amounts due to the Trust Funds, had been previously adjusted. But it is not clear how this adjustment was made. It is true that on the 2nd January 1886 a sum of Rs 16,220-10-3 was credited to the General Endowment Fund, but on the same date a sum of Rs. 12,821-11-3 was debited to the same account for certain specified items, in accordance with the recommendations of the Finance Committee, and the balance was carried forward in the account. But no credit was ever made, so far as we can discover, to any special Trust Fund of any portion of the above sum. It follows, therefore, that the sum due to the Trust Fund up to 31st December 1889, as shown in the statement attached, has now to be made good; and the Sub-Committee would propose that this amount be refunded to the several Trust Funds from the balance at credit of the General Endowment Fund which amounted, at the end of May 1890, to Rs. 12,627-2-[illegible] This balance, it may be mentioned, is available after deducting the sum of Rs. 10,5[illegible] appropriated in accordance with the resolution of Senate, dated 8th April 1889, to meet current charges.

4. As regards the sums due by certain of the Trust Funds partly to the General Current Account and partly to the General Funded Account, aggregating Rs. 5,526-5-11, it is feared that there is no way of recovering these sums from the Trusts in question, except with respect to the sum due by the Khalifa Muhammad Hussain-Aitchison Medal Trust. The amount due by this Fund is Rs. 616-4-4, and this amount may still be recovered by not awarding the Medal until the amount is adjusted from the income of the investment. The remaining items due to the General Funded Account must, therefore, be written off; but the portion due to the Current Account, amounting to Rs. 2,353-10-7, should, in the opinion of the Sub-Committee, be recovered from the General Funded Account, and carried to the Current Account.

5.—I. *Alfred-Patiála Translatorship.*—The full income of this endowment has never been used, hence the savings have accumulated to Rs. 304-11-10.

II. *Alexandra Readership.*—The University is under an obligation to contribute a sum equal to the income of this endowment. The income from the invested Fund, including that of the sum contributed by the Fuller Exhibition Fund, is only Rs. 479-5-3, whereas the University is under the obligation, under the conditions of the Trust (*vide* letter No. 11, dated 24th May 1879, from Registrar, P. U. College, to Secretary to Prince of Wales's Marriage Gift Fund), to contribute *not less* than Rs. 75 per mensem; and in point of fact the University has spent in supporting a Gurmukhi Reader, Rs. 80 a month. Thus it follows that the University has incurred an additional expenditure over income of the amount now shown as a debit against the Trust, and as no special provision was made at the time, or subsequently, to meet this excess annual expenditure, the only way it can now be adjusted is by debiting the excess to the General Funded Account, and for the future by obtaining a special allotment from the same Fund to the equivalent of the excess of expenditure over income. But, as no special provision was ever made for this equivalent in past years, the balance against the Trust has accumulated to Rs. 3,284-9-10. This sum should now be adjusted by writing it off as a charge against the Funded Account, from which the expenditure has been incurred.

III. *McLeod-Kashmír Sanskrit Readership.*—The income from this Fund is Rs. 1,2[illegible] per annum, and it has been more than spent on the salary of the Head Pandit, who combines the office of Kashmír Reader with that of the Superintendent of the Sanskrit Oriental Titles Classes. But since the date of the incorporation of the University down to March 1888 only a sum of Rs. 103 per mensem has been debited to the Fund as against a monthly income of Rs. 105-5-4, and from April 1888 nothing has been charged against the Fund. It is proposed to debit the Fund from the date of incorporation of the University to the 31st December 1889 with the full monthly income, as that amount has i[illegible]

reality been more than spent. If this proposal were accepted, there would be no balance due to the Trust at all; and we would propose to adjust the account by an entry to the following effect :—

"Expenditure actually incurred since 14th October 1882, but not charged to this Fund = Rs. 331-3-10."

VI.—McLeod Arabic Reader.—The annual income of this Fund is Rs. 1,004, while the expenditure has been Rs. 100 per mensem. As the University is not bound to make up this deficiency from the Current Account, the salary of the Reader should, we think, be reduced for the future so as not to exceed the income derived from the Fund. The excess expenditure already incurred amounts to Rs. 306-10-8, which should be adjusted in the manner above suggested, namely, by the amount due to the Current Account being repaid from the General Funded Account, and the amount due to the latter being written off.

Trusts Nos. VII, VIII and X.—The history of these Trusts is given by Mr. Larpent at pages 24, 26 and 29 of his printed Report. The sums shown as due have accrued in consequence of the monthly expenditure being somewhat less than the income; and as the amount due in each case is more than Rs. 500, the Sub-Committee is of opinion that Government Promissory Notes for Rs. 500 should be purchased and added to each of these Endowments when the market for Government Securities becomes more favorable to purchasers.

IX.—Amritsar McLeod Memorial Scholarship.—This Fund was established to provide a scholarship for a boy either of the Amritsar School or of the Amritsar District; and by a Resolution of the Senate of the 30th November 1885, it was decided that a scholarship of Rs. 5 per mensem, tenable for two years at the Lahore Government College, should be awarded to that boy of the Amritsar District or from the Amritsar School who stood highest in the Entrance Examination of the Arts Faculty and had not obtained a scholarship of greater value. But no boy of the Amritsar District has ever claimed this scholarship, apparently for the reason that the amount was too small to induce him to leave his home, especially as Middle School Scholarships were obtainable in his own district at Rs. 6 per mensem. As the income of the Fund is now Rs. 120 per annum, the Sub-Committee would suggest that the scholarship be increased to Rs. 10 per mensem, and the existence of the scholarship be notified to the *Principal* of the *M. B. College*, Amritsar.

Trusts Nos. XI and XII.—The Jhind Panjabi Scholarship and the Patiala Gurmukhi Teaching and Scholarship Fund.—The expenditure on these two Endowments has not hitherto been kept distinct, and it is thus difficult to say what portion of the actual expenditure should be debited to each. The accounts have now been prepared by debiting the *Jhind Panjabi Scholarship* Fund with such portion of the actual expenditure incurred on Gurmukhi Scholarships as would equal the income, and the balance has been debited to the Patiala Fund (augmented by the *Nábha Subscription* of Rs. 200 per mensem for Gurmukhi Scholarships, and by the balance of Rs. 669-10-9 from Sir Lepel Griffin's subscription for Gurmukhi Scholarships). It will be seen, however, that the actual expenditure incurred by the University for Gurmukhi Teaching and Scholarships has exceeded the combined income from all the above sources by Rs. 888-13-10, of which Rs. 468-4-3 were contributed by the Current Account, and Rs. 420-9-7 by the General Funded Account, less a small saving on investments. The former sum should now be refunded to the Current Account from the General Funded Account, and the amount due to the latter written off. For the future the Sub-Committee would propose that the account for each of the above Funds should be kept distinct, and that the expenditure on each should not be allowed to exceed the income. If this proposal were accepted, the monthly expenditure on Gurmukhi Teaching and Scholarships would have to be reduced by Rs. 25 per mensem.

Trusts Nos. XIII and XIV.—Bikrama Singh Natural Science Scholarship and the Egerton Maler Kotla Arabic Scholarship.—The donations for these Scholarships were received before the incorporation of the University, and the whole amount appears to have been spent prior to the 14th October 1882, in the Current Account. Neither of these Funds, therefore, existed at the date of the incorporation of the University, and the Sub-Committee, for the reasons stated in its Report, do not consider that the University can be held responsible for the amounts due to these Endowments. But it is to be noted that the University has, notwithstanding, continued to pay Rs. 10 per mensem on the *Maler Kotla Arabic Scholarship.* As there is no income to meet this expenditure, the Sub-Committee would propose that the Scholarship be discontinued from the end of the present year.

XVI.—Máler Kotla-McLeod Medal.—The cost of the Die and of the Medals already awarded amounts to Rs. 1,193, or Rs. 193 more than the original donation; and as the donor, although frequently written to on the subject, has not made any further contribution, the Sub-Committee would propose that the Fund should be treated as exhausted.

His Honor the Chancellor of the University arrived at 11 A. M., and was received at the entrance of the Government College Hall by the Vice-Chancellor and Fellows of the University and conducted to the raised platform in the Hall, the Vice-Chancellor occupying the seat on his left hand. The Fellows were seated on the right and left of the Chancellor.

The Vice-Chancellor having asked His Honor to declare the Convocation open, His Honor did so. Copies of the Annual Report on the operations of the University during the past year were circulated amongst the Fellows and visitors. Extracts from it were read in the vernacular by Honorary Surgeon Rahim Khan, Khan Bahadur, and in English by the Registrar.

The Vice-Chancellor then addressed the Chancellor in these words:—

"In asking Your Honor's permission to be allowed to read the following resolution of the Senate which was passed unanimously and which has already received Your Honor's hearty approval, I need not in such an assembly as this do more than say that the honor which the Panjab University proposes to confer thereby is deemed by all of us to be only a just and fitting tribute to an old and valued Public Servant of Government, who is soon about to leave us, for the many and important services he has rendered to the cause of education in this Province. I shall therefore no longer delay the interesting function which Your Honor has so kindly consented to perform, but will at once proceed, with your permission, to read the following resolution :—

"That Colonel William Rice Morland Holroyd, of the Bengal Staff Corps, Director of Public Instruction, Panjab, and Fellow of the University of the Panjab, is, by reason of eminent position and attainments, a fit and proper person to receive the degree of Doctor of Oriental Learning, and that under the provisions of Section 16 of the Panjab University Act, 1882, the said Degree be conferred upon him *honoris causâ.*"

The Chancellor then, with the assistance of the Registrar, conferred the degree of Doctor of Oriental Learning on Colonel Holroyd in the following words:—

"Bar hasb-i-qarárdád-i-Senate ki hálá khwánda shud ba ikhtiyáre ki mará ba haisíyat-i-Chancellor-i-ín University hásil ast, man shuma ra darja-i-Hakím-i-'ulúm-i-Mashraqi (Degree of Doctor of Oriental Learning) 'ata mi kunam, wa ín Sanad ki mí diham nishán-i-ost wa ikhityár mi diham ki shuma ín libás rá ki alamát-i-darja (degree) mazkúr muqarrar ast zeb-i-tan bikuned."

"In accordance with the resolution of the Senate just read, and by virtue of the authority vested in me as Chancellor of this University, I admit you to the Degree of Doctor of Oriental Learning, and in token thereof I present to you this diploma, and I authorise you to wear the robes ordained as the insignia of this Degree."

The Registrar then reported to the Chancellor the names of the persons who, having successfully passed the Examinations prescribed by the several Regulations since the last Convocation of the University, had been recommended by the Senate for degrees under Section 41 of the Panjab University Act.

When these presentations had been made, His Honor the Chancellor then addressed the Convocation as follows :—

"MR. VICE-CHANCELLOR, FELLOWS, GRADUATES AND UNDERGRADUATES OF THE PANJAB UNIVERSITY,—I am glad that it has fallen to my lot this year to address Convocation not only for the honor of so doing, but also because it gives me the opportunity of making a few remarks, in which I think you will agree, regarding the Degree of Honor which

the University has to-day conferred on Colonel Holroyd. He and I both joined the Civil staff of the Panjab Government more than thirty years ago, so I can speak with the knowledge of an old comrade. It will probably be long before the University confers the same honor on a man at the same time so fit to receive it for his scholarly attainments in Oriental languages, and so deserving for his faithful services to the University and to the cause of popular education in the Province. It may be said that the present vernacular literature and vernacular education of the Province owe more to him than to any other man. He has written valuable books, has helped to enrich the vernacular languages in their technical nomenclature, and has vastly improved vernacular lithography. Ever since the establishment of the University, he has been associated with all branches of its work, and has taken a large share in the deliberations of the Faculties, Syndicate and Senate. In particular he has been a leading member of the Oriental Faculty, and has greatly aided in the working out of the schemes for the Oriental examinations.

"Again, as Head of the Educational Department for over twenty years, there is nothing connected with the education of the people that has not felt the touch of his hands. The schemes of study in the Province, which will bear favorable comparison with any others; the standards of examination, Primary and Middle, which were first organized in the Panjab; the Training College and many other important educational schemes, owe their origin to him. For all these reasons he must be recognized as a most fit and proper person to receive the degree of Doctor of Oriental Learning, and his numerous friends of all races and creeds who are regretting his retirement from the public service will rejoice that before his departure from Lahore the University has conferred upon him the highest honor which it is in their power to bestow.

"It is three years, gentlemen, since I last addressed Convocation; the University was then still feeling the influence of what Sir Charles Aitchison called the false start which it had made. The three last years have, however, I am glad to say, been years of quiet and useful progress—undisturbed by scandal or internal strife of any kind. The credit for this is due to the wisdom and unanimity of the Senate, and in particular to the very able and active manner in which our present Vice-Chancellor has performed his high duties during his double term of office: the public spirit and zeal in the cause of education which induced Mr. Rattigan to assent to my earnest request that he should serve for a second term as Vice-Chancellor were, I am sure, gratefully recognized by all interested in the welfare of the University. The Vice-Chancellor also presided over the Committee which has thoroughly reorganized the Oriental College; it now, I believe, stands at last on a really satisfactory footing, and is superintended by Dr. Stein, who is an accomplished Oriental scholar, and thoroughly imbued with the necessity of pursuing the most enlightened methods of instruction and research.

"The annual report which we have just heard read shows that the results of the various examinations held by the University in 1890 compare very favorably with those for the previous year, and if a comparison be made with the statistics for 1885, it will be found that since then great progress has been made, the number of students successful in the Oriental Titles Examination having increased by one-third, those who passed the Entrance examination also by one-third; while the number successful in the Intermediate and Degree examinations has on the whole increased nearly three-fold. The list of degrees taken in 1890 points to another change which is a matter for congratulation: I refer to the extent to which Muhammadan students are now beginning to take their proper proportionate place in the lists. In earlier years Muhammadan names were extremely rare; in the past year, however, all the five degrees in the Oriental Faculty were secured by Muhammadans, who also took 13 out of the 35 degrees in Arts.

"The revision of the pass percentages and standards for the Middle School and Arts and Oriental Examinations is perhaps the most important action which the University has taken in the past year. The excessive proportion of failures in these examinations which had occurred for some years previous to 1888 aroused a feeling of discontent in the minds of many masters of schools and colleges, as well as among the mass of Panjab students. It was asserted that the small proportion of passes tended to discourage high education, and was due partly to great fluctuations in the standard of examination papers, and principally to the rules of the Panjab University requiring higher pass percentages than the rules of the Calcutta and other older Universities. As there seemed to the Panjab Government to be a considerable amount of truth in these representations, the matter was recommended to the attention of the Educational Conference which sat in May 1889. The subject was very carefully considered by the Conference, and the Panjab Government in August recorded a Resolution in which most of the conclusions of the Conference were accepted.

"It was, however, considered in some quarters that there was a danger of too great a reduction of pass standards being made in deference to agitation, and this excited a cautious opposition. Many now present will remember that His Excellency the Viceroy, in his speech at the last Convocation, also sounded a note of warning on the subject.

"The result was that the questions involved were very carefully sifted and con by the Senate, and the decisions arrived at, which have been accepted by the Panjab G ment, may be confidently regarded as thoroughly safe and sound. The number of su required for the several examinations has been somewhat decreased, and the perce slightly lowered. In the new scheme there will be more play for individual talent, an reduction in the number of subjects that may be taken up will conduce to a more tho knowledge of those that are studied. There is also in the new scheme a gradual conc tion, the principle involved being that as a student progresses, depth and thorough selected subjects are preferable to width and superficiality. In respect to the suffi of the newly-adopted pass percentages, it need only be said that these remain, o whole, considerably higher than at the other Universities in India. There is no reas fear, therefore, that the Panjab University will not jealously maintain a proper sta That her highest honors are not easily attained is seen from the smallness of the n admitted to the Masters degrees. As to fluctuations of standard, some measures hav taken by the University to ensure uniformity, such as the organization of Boards of S with certain defined powers, and the preparation of model examination papers. T measures will no doubt do good and the question of the appointment of Moderators presents considerable difficulties is still under consideration. The University is well that its work is not measured so much by the degrees it confers as by the direction it to the education of the Province. The standards and courses largely fix the lines and of work in the schools. I therefore congratulate the Senate on having decided durin past year to henceforth hold a clerical and commercial examination which will tes fitness of youths for these professions at what has hitherto been exclusively the Univ Entrance stage. The Senate has also decided to have a course, alternative with the ord Entrance course, which will exact more instruction of a scientific and practical character. to be hoped that these two measures may help to open out new lines of life to some o well-educated school boys of the Province.

"In this connection I am glad to say that the Government is doing what it ca promote technical education; the staff of the Mayo School of Art has been strengthened new school buildings are about to be constructed for the Technical School attached to Railway Workshops, which is very popular with the artizans and promises to be a succes

"It is very encouraging to observe that the people of the Province are not dispo allow the Local Government or the University to have a monopoly of interest in the pro or direction of popular education. In the last five years there have been various indep movements, of which the following among many may be specially mentioned.

"The Arya Samaj have established with great success the Daya Nand Anglo-V College and School at Lahore with branch schools at other places.

"The Anjuman-i-Himaiyat-i-Islam have established a large High School for Mu madan boys and some 30 girls' schools in Lahore and branch schools in other places: it ha published school books specially suitable for Muhammadan children; and quite recently a nu of Sikh gentlemen have combined to secure the establishment of a Sikh Central School College, and the eventual success of the scheme seems to be secured by the munificent do promised by His Highness the Maharaja of Patiala, who has also, by-the-bye, as mentioned i report we have just heard read, offered the University an endowment of Rs. 50,000 the foundation of scholarships in honor of the visit to Patiala of His Royal Highness P Albert Victor. I myself regard these independent movements with entire satisfaction: indicate no doubt that certain classes wish to have a closer and more independent co over the education of their children than they can have in ordinary schools supported b public funds, and that they wish to effectually combine religious with intellectual educat but they do not indicate any narrow spirit of bigotry or reactionary feeling in regar education: on the contrary, it may be safely said that at the present time there is a gr absence of such a feeling in the Province, and that there is no indication of antagoni questions of general principle.

"These independent movements show real life, and will, it may be hoped, lead t wholesome diversity of growth. There is no fear of the institutions they found not follo in the end any lines in the system of our State-controlled institutions which are practi shown to be good and useful; on the other hand, they are likely to afford many hints to Government and to the University, and to keep our energies alive by the spur of comp tion.

"These signs of independent energy also encourage me more than anything els hope that our high education will soon be less sterile than it has hitherto been; th addition to well-educated officials we shall soon have many true students, lovers of lear and searchers after truth, whose presence will be shown by the improvement of the ver lar newspaper press, and by the creation of a new vernacular literature. Such a litera

would raise and widen the moral and intellectual ideas of the masses, and help the Government to guide its course in the difficult time which the rapid change in popular ideas and beliefs is certainly bringing.

"I earnestly commend to the students now present that they should, so far as each man's circumstances will permit, make this their aim as well as the mere attainment of a purely personal end, such as a profession or an appointment under Government. Outside such appointments and professions there is a great field of usefulness, honor and fame open in India at the present day to the true student. But as our present Vice-Chancellor well said in addressing the graduates in 1888, unflinching perseverance is necessary. There is plenty of mental ability in this country, but that close and continous effort and attention without which accurate knowledge and perfection of work cannot be secured are said to be rare in our Indian Universities, where the students are, I am told, apt to get discouraged by small obstacles, and frequently to abandon all effort in despair. The biographers of our English statesmen, authors and scientific discoverers show that a persevering and accurate habit of working has been the main cause of their success. As one of them has remaked, "Genius is principally a capacity for taking infinite pains," and I will quote what was uttered by another, the well-known philanthropist and statesman Sir Fowell Buxton: "The longer I live," he said, "the more I am certain that the great difference between men—the feeble and the powerful, the great and the insignificant—is energy, invincible determination; that quality will do anything that can be done in the world, and no talents, no circumstances, no opportunities will make a two-legged creature a man without it." Students, therefore, in college and in going forth into the world should carry brave hearts and resolute determination with them, and they will be sure to succeed.

"'If thou cans't plan a noble deed,

And never flag till it succeed,

Go on, true soul,

Thou'lt win the prize, thou'lt reach the goal.'"

At the conclusion of the address the Chancellor declared the Convocation closed. He was then conducted by the Vice-Chancellor and Fellows of the University to the south door of the Hall and took his departure.

The Indian Law Reports.

PUBLISHED UNDER AUTHORITY.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

PUNJAB AND ITS DEPENDENCIES.

LAHORE, THURSDAY, FEBRUARY 12, 1891.

PART III.

Notifications by Chief Court, Financial Commissioner, Accountant-General, &c.

CHIEF COURT.

BOOK CIRCULAR No. I—612 G.

To

ALL JUDICIAL AND REVENUE OFFICERS

IN THE PUNJAB AND OTHER PERSONS CONCERNED.

Dated Lahore, 2nd February 1891.

Additions to the rules circulated with Book Circular XIII of 1890 regarding Petition-writers.

THE following additions to the rules declaring what persons shall be permitted to practise as Petition-writers in the Courts and offices in the Punjab, regulating the conduct of persons so practising, and determining the authority by which breaches of rules shall be tried, have been made by the Chief Court with the sanction of the Local Government, under the powers conferred by Section 14,

sub-section (1), clause (*b*), of the Punjab Courts Act, 1884, as amended by Act XIII of 18 and are published for general information, in continuation of Book Circular No. XIII, 3110G., dated the 8th July 1890.

2. To Rule XXVI (i) add the words :—

"*Subject to the provisions of Rule XXX (a)*" at the commencement of the rule.

After Rule XXX add the following rule :—

"*Rule XXX (a).—Any Judicial or Revenue Officer or Court who, upon the represen tation of any person employing a Petition-writer, after hearing such Petition-writer (if he des to be so heard), finds that the fee charged for writing a petition presented in his office or Co was excessive, may, by order in writing, reduce the same to such sum as appears to be, und the circumstances, reasonable and proper, and may require the Petition-writer to refund amount received in excess of such sum. An order passed under this rule shall not be revis except by the officer or Court who made it.*"

3. The object of the additions made to the rules is to enable Courts and office before whom Petition-writers ordinarily practise to control, under special circumstanc the charges made by them to their employers as remuneration for their services. By R XXVI (i) of the rules contained in Book Circular XIII of 1890, licensed Petition-write are permitted to make their own terms, as to the remuneration to be paid to them for th services, with their employers. The addition now made to this rule renders this power subje to the provisions of the new Rule XXX (*a*) now issued, which empowers Courts and officers revise the charges made when it is represented to them that these are excessive, and to red them to a proper amount.

4. The power here given should be used with caution. No interference with freedom of contract allowed by Rule XXVI (i) should take place except on the representat of a person employing a Petition-writer that an excessive charge has been made, and only when it is clearly shown that the amount charged is excessive with reference to ordinary charges for similar work prevailing in the district.

5. It is not intended that the power given should be used in such a way as to inv the practical fixing of a scale of fees for various kinds of work by the Courts. Wha intended is that the Courts shall have the power to limit the charge in cases in which, owing special circumstances a Petition-writer would, if left entirely to his own discretion, be i position to demand an excessive fee; as, for instance, when an officer goes on tour and a sin Petition-writer accompanies him for the purpose of writing petitions for suitors following into localities at a distance from the head-quarters of the district, or where, as in hill stat frontier districts, and in Tahsil and Honorary Courts situated at a distance from head-quart of districts, the number of Petition-writers is so limited that there is no reason competition; or, again, where Petition-writers may be found to have combined to cha unreasonably high fees for their services.

E. W. PARKER,

Registrar.

3.—EXAMINATIONS.

1. Examinations are of three kinds,—*Weekly Examinations, Sessional Examinations,* and *University Examinations.*

2. *Weekly Examinations* are held after every five lectures by each Professor on the subjects of the five preceding lectures. They are oral, and marks are given at each examination from 0 to 4.

3. *Sessional Examinations* are held at the end of each Summer and Winter Session in the first, second and fourth years, and Summer of the third and fifth years, in the subjects lectured on during the preceding Session.

2. *Entrance Scholarships* are six in number, and of the value of Rs. 12 per month each. They are awarded on the results of the Arts Examinations of the Punjab and Calcutta Universities as shown in the class lists, that is to say, students who have passed a higher examination in Arts are preferred to those who have passed a lower examination; and among students who have passed the same examination in Arts, preference is given to those who stand highest on the list.

3. *Junior Scholarships* are eighteen in number, and of the value of Rs. 14 per month each. They are tenable by students of the second, third and fourth years, and are awarded according to the aggregate marks obtained in all the examinations of the year immediately preceding, to those who obtain most marks.

1. In the year 1879 a sum of Rs. 10,000 was presented to the College by His Highness the Nawáb of Baháwalpur in honor of Colonel L. J. H. Grey, C. S. I. The interest of this fund, as far as it will go, is devoted annually to scholarships awarded in the same way and held under the same conditions as College Scholarships.

2. These scholarships are tenable primarily in the College, but if not taken up in the College, the Principal may allot them to the School.

3. They are open, in the first instance, to students in the College, or pupils in the School, as the case may be, who are residents of the Baháwalpur State. But if there are no fit students or pupils from the Baháwalpur State, residents of the Punjab may receive the scholarships.

4. Holders of these Scholarships must sign an agreement, a copy of which can be obtained from the Principal.

6.—SCHOLARSHIPS FOR FEMALE STUDENTS.

1. In addition to the College scholarships, six Scholarships of the same value and under the same conditions will be given to female students who pass the Entrance or higher Examination in Arts in any Indian University.

PUNJAB PUBLIC LIBRARY.

I.—MEETING, 1891.

A meeting of the Committee of the Punjab Public Library was held on Friday, t 13th February, at 8 A. M.

There were present—

W. H. Rattigan, Esquire, LL.D., President (in the Chair).

M. A. Stein, Esquire, Ph.D.

Sheikh Nának Bakhsh.

Pandit Jawála Datta Parsáda Goswámi.

1. The accounts for the months November 1890 to January 1891 were passed.

2. Read letter dated 9th January 1891 from Muhammad Ibráhím concerning h father's proposal to make over the Azád Library to the Punjab Public Library. The Com mittee regretted that he was not prepared to agree to the proposal as they consider that by th transfer the books would be more accessible to the public. As it is understood that the buil ing in which the Azád Library is kept has been taken over by the Municipality, it was decid that if the Library is not re-opened within the period of two months from this date, t Committee would be compelled to ask for return of the books lent to it under paragraph 3 Proceedings No. I of 1889.

3. On a representation made by certain influential persons that the donation for a li membership required by I—16 of the Library Rules is fixed too high, it was resolved that letter be addressed to Government recommending that the fee be reduced from Rs. 100 Rs. 50. It was considered that the difference between the donation of a life member a that of a life subscriber is very great and without any corresponding advantages.

4. Resolved that Rája Amar Singh, Prime Minister and President of the Coun of Jummoo, be asked, having regard to the usefulness of the Library, to present it with t copies of the Sanskrit works published by the State. They would add considerably to t stock of such books already in the institution.

5. The following sums were sanctioned for the purchase of new books for t Library :—

Rs. 1,200 for English works.

Rs. 1,000 for Sanskrit works.

Rs. 1,000 for Persian and Arabic works.

The list of English books submitted by the Secretary, which included a large num of standard works of fiction, were, with certain exceptions, approved and he was autho to order them from England. Dr. Stein kindly undertook the selection of Sanskrit wo of good editions and text-books. He also agreed to look over the list of Persian works a amend or add to it as seemed advisable. As regards Arabic works, it was decided that t should be procured from Egypt, and the Secretary was directed to write for catalogu Dr. Stein kindly promising to furnish the address at which they are obtainable.

6. With reference to paragraph 5 of the Committee Proceedings No. V of 188 was brought to the notice of the Committee that Lieutenant-Colonel W. H. Browne, Cant ment Magistrate, Quetta, had failed to return the Turki Dictionary taken out by him had ignored this office letter No. 152, dated 30th August 1889, and 13 reminders addresse him on the subject. It was therefore ordered that the money deposited by him under Rule II 1 be appropriated to cover the cost of a new work and postage.

7. Resolved that the thanks of the Committee be conveyed to the Municipal Committee, Lahore, for the water pipe presented to the Library.

8. As it was considered that the funds of the Library could not bear the expense of having a portrait of the late Mr. Tolbort, [illegible] c. s., painted by an artist, the Secretary was directed to ascertain from Johnstone and Hoffman what the cost of a life size bust, to be taken from the cabinet photo marked C (kindly lent by Mr. Robinson of the Aitchison College) would be.

9. Resolved that the consideration of the question of Branch Libraries be postponed to the next meeting.

10. Resolved that the thanks of the Committee be communicated to Munshi Ganga Bishan Peshâwaria for his present of an old copy of the Adi Granth transliterated in the Persian character in the reign of Nádir Shah.

11. The following donations were reported and acknowledged with thanks :—

FINANCIAL COMMISSIONER'S OFFICE.

CIRCULAR MEMO. No. 1 OF 1891.

FINANCIAL COMMISSIONER'S OFFICE,

Dated Lahore, 11th March 1891.

TO

ALL COMMISSIONERS AND DEPUTY COMMISSIONERS IN THE PUNJAB.

Instructions for the preparation of the Income Tax Report, 1890-91.

THE Financial Commissioner requests that the following instructions for the preparation of the District Reports and Returns on Income Tax Operations during the year 1890-91 may be carefully followed.

2. The returns should be dealt with as indicated in the annexed memorandum.

3. In its Review of the last Income Tax Report Government commented upon the figures under Part I. On this, the Financial Commissioner is making separate enquiry, but the matter should be briefly noticed in the Annual Report of each District.

4. The Deputy Commissioners concerned should prominently notice Government's remarks in paragraph 5 of its Review of last year.

5. In preparing the reports on the working of the Income Tax Act Deputy Commissioners will be expected to give some account of the mode in which the assessment lists for the year under report were prepared, special attention being paid to the remarks made in the last Annual Provincial Report and Review. Variations in the initial and final demands as compared with the initial and final demands of previous years should be commented upon. The extent and character of objections and appeals, the agency by which they have been disposed of, and the mode in which they have been investigated should be described. The way in which the penal provisions of the Act have been applied should be specially noticed, and attention should also be paid to the following points, *viz.*, the statistics of large towns in regard to the incidence of the tax, particulars as to European and other tax-payers in large Civil Stations and Military Cantonments, and the state of the balances. Estimates of the probable amount of the assessments and of the probable amount of the final demand under all the Parts for the ensuing year should be given. With regard to objections it should be clearly stated how many were heard by Deputy Commissioner and how many by other officers, and also how many were *(i)* wholly successful, *(ii)* partially successful, *(iii)* rejected. Urban and rural incidence of the tax *per mille* of the population under all the Parts should be noted.

6. When Return III has been carefully prepared as directed below, a copy of it should be *at once* despatched to the Accountant-General's Office for favour of verification. Any discrepancy noted by the Accountant-General should be then cleared up and the Return should be corrected and ready for use by this office before the date prescribed for submission to this office (15th May). All communications connected with this Return should be treated as "immediate."

7. No Divisional reports are required. As each District report is received the Commissioner should cause the figures to be checked in his office and should then forward to this office with any remarks he may wish to make.

By order, &c.,

D. C. JOHNSTONE,

(Translated). *Junior Secretary to Financial Commissioner, Punjab.*

Memorandum regarding the Annual Income Tax Returns of the Punjab.

Return I.—For this the figures are procured independently of the District Offices.

Return II.—This return shows realizations from interest on securities under Part III of the second schedule to the Act. District Officers will fill in the particulars required by columns 7 and 8, which relate to securities issued by local authorities or companies—*vide* Part III, clause *(c)*, of the second schedule. They will have nothing to do with the filling in of columns 3 to 6, the figures for which will be supplied by the Accountant-General. Attention is drawn to this as mistakes were made in this matter last year.

Return III.—(*i*). Columns 3 and 4 are not to be filled up in District Offices, and column 13 is to correspond to column 8, Return II.

(*ii*). Return III is to show total collections during the year under report whether on account of that year or of previous or succeeding years. In the columns up to 20 inclusive—subject to (*i*) above—all receipts should be shown whether refunds have been subsequently made under Chapter IV of the Act or otherwise. Sums received on account of other districts should be included in Return III of the district *where the payment is actually made*, and *not* in Return III of the district on account of which it was made. It follows that column 20 should show a total in complete accordance with the figures of the Accounts Department.

(*iii*). Column 21 (Refunds) should similarly include all refunds actually made during the year under report, whether on account of that year or of previous years, and whether made under Chapter IV of the Act, or Section 33, or otherwise. The total of the column should therefore agree with the figure of refunds in the books of the Accountant-General.

(*iv*). Return III as originally prescribed had no column for miscellaneous receipts, though the Accountant-General has an entry of this kind in his books. A column for these receipts (No. 19*a*) has now been added; and the heading of column 20 must be "total of columns 17, 18, 19 and 19*a*."

Return IV.—(*i*). The entries by Deputy Commissioners in this Return under Part I should not include deductions from salaries, pensions, annuities and gratuities paid by Government, but only from those paid by local authorities, companies, public bodies, associations and private employers.

(*ii*). The entry opposite Part III should show only the tax on interest on securities of local authorities or companies—see column 8, Return II—and should not include tax on interest on Government securities. Columns 2, 4, 6 and 8, opposite Part III may be left blank.

(*iii*). For the Return generally the following directions should be very carefully followed :—

(*a*). Fill up columns 3, 5 and 7 throughout.

(*b*). Treat the return as an *administrative* one. "Demand" means demand on *account of the year under report* only. Collections, if any, in the previous year on account of the year under report should be included. Demand under all heads on account of previous years, and collections under all heads during the year under report on account of previous years, should be shown only in columns 14 and 19 respectively. Collections during the year under report on account of the ensuing year should be entirely excluded, as also should sums collected and afterwards *during the year* refunded. Sums collected in one district on account of another are to be included in Return IV of the district *on account of which* the collection was made, and *not* in Return IV of the district in which the collection was made.

(*c*). Column 15 should equal column 20 + column 21 ; or an explanation of the discrepancy should be given. Column 21 should show only *recoverable balances*.

(*d*). It follows that the totals of column 22, Return III, will in most districts differ from the total of column 20 of Return IV. The difference, if any, should be fully explained in a + − account in the "Remarks" column of Return IV.

(*iv*). As in the case of Return III, this Return should show miscellaneous receipts. Columns 13*a* and 14 have been added for this purpose, the first for demand and the second for collections. The proper heading of column 15 is therefore "total of columns 9, 11, 13, 13*a* and 14."

Return V.—This is also an administrative Return. No entries should be made by Deputy Commissioners on account of salaries, &c., paid by Government. Columns for Grand Total opposite "Abstract I, Salaries—others" should correspond to the figures in columns 8 and 9, Return IV. opposite Part I ; columns for Grand Total opposite "Abstract II, Companies" should correspond to columns 8 and 9, Return IV, opposite Part II ; columns for Grand Total opposite "Abstract IV, Other sources" should correspond to columns 8 and 9, Return IV, opposite Part IV.

Return VI.—This Return shows the expenditure and presents no difficulties. It should include the pay and deputation allowances of officers on special duty, and the pay of District, Tahsíl and Cantonment Muharrirs. Travelling allowance should not be debited to income tax expenditure unless an officer goes into camp for the sole purpose of the administration of the income tax. The charges for country paper, lithography, &c., for income tax need not be kept separately from the general district expenditure under these heads, nor need they be shown in this Return.

N. B.—In the Returns generally only whole rupees should be entered. Fractions of a rupee less than eight annas should be neglected, eight annas or more being counted as a whole rupee.

Income of Divisional and Small Cause Courts from inspection fees, record office fees, and sales of waste paper is to be credited in the Treasury to the Record Office (Incorporated Local) Funds of Divisional Courts.

(2) record office fees, recovered under the authority of Book Circular No. III-2378 G., dated the 15th May 1890 (paragraph 10 and Rule VII); and

(3) sales of waste paper;

in each Divisional Court and in every Small Cause Court subordinate thereto (whether in a Cantonment or at the head-quarters of Civil District), should, under the authority quoted in the margin, all be paid into Treasury, to the credit of the Record Office Fund, or (as it is called by the Accounts Department) the Incorporated Local Fund of Divisional Court.

Punjab Government No. 1855, dated 17th August 1887.
Punjab Government No. 1787, dated 12th September 1889.
Punjab Government No. 388, dated 20th February 1891.
Accountant-General's Circular, new series, No. 84 L. F., dated the 12th September 1887.

Expenditure from such funds to be under the control of Divisional Judges. No expenditure to be incurred except for facilitating inspection of records, meeting the comfort and convenience of the litigating public and improving Record Offices.

4. Divisional Judges are authorized to sanction expenditure from the fund so constituted, falling under any of the following heads, whether on account of their own courts or on account of any Small Cause Court subordinate to them:—

(1) facilitating the inspection of records;

(2) meeting the comfort and convenience of the litigating public; and

(3) effecting improvements in the Record Office of the Divisional Court or any Small Cause Court subordinate to it.

It is to be understood, however, that charges which should ordinarily be borne by the allotment for *Judicial Contingencies*, and charges for the construction or repairs of buildings which should ordinarily be borne by the Public Works Department, are not to be incurred from the Record Office Fund.

Divisional Judges responsible that no expenditure is incurred except under sanctioned heads.

5. Divisional Judges will be held personally responsible that no expenditure from the fund, not coming strictly within the heads specified in the preceding paragraph, is sanctioned or permitted.

All cheques to be signed by Divisional Judges.

6. All cheques drawn against the Record Office Fund of a Divisional Court will be signed by the Divisional Judge.

Account to be kept by Divisional Judge, and copy submitted quarterly to Registrar, Chief Court, for audit.

7. The Divisional Judge will keep an account of the fund and will submit a copy of the account at the close of each quarter to the Registrar of the Chief Court, for the information of the Chief Court. Any expenditure not authorized by these instructions will be disallowed by the Chief Court.

Expenditure in Small Cause Courts to be sanctioned by Divisional Judges.

8. Judges of Small Cause Courts desiring sanction to any expenditure from the fund will apply to the Divisional Judge to whom they are subordinate, and it will rest with him to sanction or disallow such expenditure.

Duty of Divisional Judge to see that all income is duly credited.

9. It will be the duty of Divisional Judges to see that income falling under the heads specified in paragraph 3 of these instructions, is duly credited to the Record Office Fund of the Court by Small Cause Courts as well as by their own courts.

Amount at credit at close of year in excess of Rs. 150 to be credited to Government.

10. At the close of each financial year, namely, on the 31st March, the amount at credit of the fund of each Divisional Court in excess of Rs. 150 will be forthwith credited to Government by the Divisional Judge. If, for any sufficient reason, a Divisional Judge considers it necessary to retain the whole or a portion of the closing balance in the fund, in excess of Rs. 150, in order to meet any expenditure, he must obtain the previous sanction of Government (through the Chief Court) for the purpose.

Divisional Courts to consider the wants of each court and appoint the necessary establishments in order that full advantage may be taken of the income to improve Record Offices and meet the convenience of the litigating public.

11. As it is undesirable to continue to levy fees in excess of what may be sufficient to meet all proper expenditure under the heads already noted, it is necessary that Divisional Judges should, from time to time, consider the wants of their respective courts and of the Small Cause Courts subordinate to them, and appoint the necessary establishments, in order that full advantage may be taken of the income to improve the Record Offices of the courts concerned and to meet the convenience of the litigating public.

12. It is not intended that expenditure which would in the ordinary course be met from the sanctioned budget estimates should be incurred from the Record Office Funds of Divisional Courts; the object is to provide such additional establishments and conveniences as may be found necessary in the interests of the litigating public.

The fund is not intended to meet expenditure ordinarily debitable to sanctioned budget allotments.

13. The account to be maintained in Divisional Courts should be in the annexed form. A copy of the entire account should reach the Registrar within fifteen days of the close of each quarter. This account will be examined in the Chief Court office in order to see that the expenditure incurred is permissible under paragraph 4, and that these instructions have been duly observed. A cash-book of income and expenditure should be kept up by the Clerk of the Divisional Court and signed by the Divisional Judge weekly or oftener. The cheque-book should remain in the custody of the Divisional Judge. All income should, when possible, be sent daily to the Treasury; under no circumstances should it be transmitted later than on the working day succeeding that on which it is received.

Form of account. Copy to reach Registrar within 15 days of the close of each quarter. Cash-book to be maintained and signed by Divisional Judge. Cheque-book to be kept by Divisional Judge. Income to be promptly paid into Treasury.

14. At the close of each financial year (31st March) an *abstract* account for the whole year will be submitted to the Registrar of the Chief Court, showing the annual income grouped under the three heads of (1) Inspection Fees, (2) Record Office Fees, and (3) Sales of waste paper; and the annual expenditure grouped under (1) Establihments, and (2) Other charges.

Annual abstract account.

15. At the close of each month a balance should be struck and verified by reference to the Treasury Officer.

Monthly balance to be struck and verified.

16. Proper vouchers should be kept supporting expenditure. Each item of income should be supported by the Treasury receipt. In order to enable the Divisional Judge to check sums paid into the Treasury by Small Cause Courts, the Judge of each Small Cause Court should submit monthly to the Divisional Judge a list of all sums paid into the Treasury by his court, together with the Treasury receipts.

Proper vouchers to be maintained. Monthly list to be submitted by each Small Cause Court to Divisional Court showing sums paid into Treasury.

17. Cheque books, account books and forms required for the purposes of Record Office Funds should be provided at the cost of those funds, and should be charged accordingly.

Notice.

TO RESIDENTS IN THE KULU VALLEY.

THE following notice is circulated amongst the European Residents of Kulu with a view to the avoidance of inconvenience or loss on their account when applying for deodár building timber, either at the "zamíndári" or at the local "full" rate.

2. It is now well known that many of the deodár forests in Kulu, and especially those between Sultanpur and Manali, have been greatly reduced in value through over-felling. In most of these forests no mature deodár ought to be felled for many years to come under any circumstances; and none such will be felled by the Forest Department for export.

3. There would appear to be some misconception on the part of European settlers in the valley regarding deodár timber for building purposes. In the first place no person, even though a zamíndár, has a right to any particular tree or to timber from any particular forest, or indeed to timber at all from any of the 1st class forests, which include all the more accessible of the demarcated forests. Again, it should be distinctly understood, in so far at least as the more accessible forests in the vicinity of Nagar, Manali, &c., are concerned, that the Forest Department does not seek to sell deodár trees either at the "zamíndári" or the "full" rate in order to swell its revenue. The latter fact is not due to the extremely low prices fixed at present for deodár trees, but is owing to the state of things noted above as regards the exhausted condition of the forests and their reduced capital value. It follows accordingly that the deodár trees, if sold from these particular forests, are sold only to suit the convenience of residents, and for no other reason.

4. Under the arrangements recently sanctioned and introduced into Kulu, free timber (other than deodár) and deodár at the privileged rate of Rs. 3 per tree will usually be obtainable (if obtainable at all) only once a year, and when each kothi is in turn visited either by the Assistant Commissioner or Forest Officer for that purpose. And deodár at the reduced rate of Rs. 3 per tree can only be obtained from any particular forest if the tree or trees applied for can culturally speaking be removed without damage to the forest in question.

5. As regards residents who wish to obtain deodár timber at the full rate, a change in the existing practice is essential in order to insure in future a better conservancy of the cedar forests. Intending purchasers often forward their applications, stating that the timber is required from a particular forest and *at once*. The timber when granted has hitherto usually been marked for sale by a forest guard or forester; and it is reported that purchasers have often been permitted to choose their own timber.

This procedure is incompatible with the efficient maintenance and improvement of the deodár forests.

6. Every endeavour will be made to meet the requirements of intending purchasers, who should, however, understand that it may prove impracticable to accede to every request which may be made as regards deodár timber. And, if timber be available, it is necessary that the Forest Officer shall in future mark the trees himself. In order to effect a partial remedy for the state of things remarked upon above, intending purchasers are requested, when forwarding their applications for deodár trees at "full" rate—

(a) To state clearly the forest or locality from which the deodár is desired, and whether they will accept timber, if necessary, from other localities; and

(b) To give at least six weeks' notice of their wish to purchase such timber.

7. Residents are also reminded that all building timber granted either *gratis* or at a privileged rate during the annual kothi distribution must only be used for the purpose or purposes for which it was applied for and granted originally.

8. In order to avoid needless correspondence and inconvenience to residents, it is also intimated that in cases where no right can be claimed no forest produce can be granted free of charge unless the previous sanction of the Local Government or of the Conservator of Forests has been obtained.

J. L. PIGOT,

Offg. Deputy Conservator of Forests, Kulu Division.

"The question of the rate to be fixed for the Patwári cess should be dealt with in the Report, but any revision of circles, number of establishment, and rates of pay which may be necessary in any tahsíl under reassessment should, as far as possible, be settled before the Report is submitted, and the Settlement Officer should also obtain the opinion of the Director of Land Records as to the adequacy of the rate which he proposes to adopt to meet the future requirements of the Patwári agency."

Punjab Government No. 470 of 20th February 1885.

For the Asiatic Society of Madras in this list the "Madras Central Museum" should be understood. Further, if exceptional cases arise in which it is considered unnecessary for any sufficient reasons, such as the largeness of the quantity found, or the coins being known to be of merely metal value, to acquire the *whole* of the coins found, it will be open to the Local Government concerned to pass in each case such orders as may be deemed suitable. But as a rule the orders of 9th October 1884 should be carefully followed.

This paragraph is superseded. In its Resolution No. $\frac{3}{149\text{-}63}$ of 8th February 188[illegible] the Government of India in Home Department (Public), on the suggestion of the Asiatic Society of Bengal, directed that coins which might remain unsold at the local mints should instead of being melted down in this country, be sent to the India Office for public sale, due notice of such sales being given to institutions and individuals in Europe interested in numismatics. It is understood that only the surplus of those particular finds which the Asiatic Societies in India may consider worth sending to England for sale will be treated in the manner proposed.

It is also desirable that excavations should not be made, nor objects of archæological or historical interest disturbed, without the previous inspection and consent of the Archæological Survey Department. However carefully the contents or relics found in ancient mounds may in some cases be collected and forwarded to the provincial Museums by the excavators, the excavations themselves always destroy those indications of purpose and arrangement that the specialist alone would notice, and which are of as much interest as the objects found. Further, when excavations have once under proper sanction been commenced, it should be distinctly understood that *every* object found in the excavations should be sent to the appropriate Museum.

Financial Commissioner's Circular letter No. 1666 of 13th March 1891.

11 *B.* The Financial Commissioner has circulated for general guidance a copy a memo. on the procedure adopted by the Deputy Co missioner of Siálkot for making the Loans Act po by avoidance of vexatious formalities and saving ap cants from unnecessary journeys to the Tahsíl or Sadr. At the same time it is to be b in mind that the interests of Government must be adequately protected. Lastly, much h is done by giving inadequate sums to applicants. This is a direct incentive to misap tion of the loan and is in any case a hardship to the applicant. Either a loan should b refused or a sum sufficient to cover the whole cost of the projected work should be given.

FINANCIAL COMMISSIONER'S OFFICE.

Addenda and Corrigenda to Punjab Revenue Circulars.

Add the following Circular to the Volume of Punjab Revenue Circulars after Circular 63:—

No. 64. Procedure in Partition Cases.

Defects in enquiries in partition cases.

1. The Financial Commissioners have reason to believe that much unnecessary delay often occurs in the decision of partition cases, and that sufficient care is not always taken to define accurately the limits of the land assigned to each shareholder and to point these out to the parties interested. These defects are in some degree to be ascribed to the absence of any detailed instructions as regards procedure, supplementary to the legal provisions contained in Chapter IX of the Punjab Land Revenue Act (XVII of 1887). The following instructions on the subject are therefore issued for the guidance of all revenue officers.

Effect of Section 126 of Act XVII of 1887 explained.

2. Proceedings under Chapter IX of the Act can only be taken by a revenue officer of a class not below that of an Assistant Collector of the 1st grade (Section 126). No officer of a lower grade should, therefore, receive an application presented under Section 111. But an Assistant Collector of the 1st grade, to whom an application has been presented, can, under Section 17 (3), refer it for investigation and report to a revenue officer of a lower grade, and can decide the case on his report. This is the course that is usually followed, the case being sent for enquiry to the tahsíldár. This procedure possesses some obvious advantages, as the parties can attend more easily at the tahsíl than at the sadr, and the tahsíldár is in a better position to make enquiries on the spot. The instructions in this circular are based on the supposition that the above course will be followed, but they are not intended to prohibit a 1st grade Assistant Collector from disposing of a partition case himself. If he refers the case to the tahsíldár he must remember that he is responsible for its proper conduct in all its stages, and that he is expected to exercise a real supervision over the proceedings of the tahsíldár. In the quarterly business returns the case will be treated from first to last as belonging to the file of the revenue officer who has power to decide it, and it should be entered as instituted in such officer's register on the day on which the petition is received. Cases may be sent for enquiry to the náib-tahsíldár, if he possesses the necessary experience, as well as to the tahsíldár.

Applications to be accompanied with extracts from jamabandi.

3. The application for partition should be accompanied by an extract from the last detailed jamabandi, giving usually the complete entry for the holding or holdings of which partition is desired. A note of any mutations attested after the filing of the last detailed jamabandi should be added. Although the petitioner may only wish to divide part of the joint holding, he should, as a rule, be made to file a copy of the entries for the whole, for the other shareholders may object to a partial partition. The names of all owners, mortgagees, and occupancy tenants must be given. If the revenue officer has not from the first a list of all the interested parties on his file, great delays are certain to occur. If, however, the area to be divided is very large, consisting, *e. g.*, of a whole village or patti, or of the common land of a whole village or patti, convenient abbreviations should be allowed in the extract. If the extract is manifestly incomplete, the application should be returned to the petitioner by the officer receiving it, with an order endorsed on it that it may be presented again accompanied by a proper extract. If the imperfection of the extract is not discovered till the case has been referred to the tahsíldár, that officer should fix a reasonable time for the filing of a full extract, and, if the petitioner fails to comply with this order, he should return the application to the officer from whom he received it with the suggestion that it should be removed from the pending file. But care must be taken that the patwári furnishes proper extracts to persons asking for them, and, if he has received the fee prescribed in Land Revenue Rules, Part I, Section 23, for giving an imperfect copy, it should be recovered from him and credited to the patwári fund, and he should be made to furnish the second copy free of cost.

Attendance of parties.

4. All parties interested should be summoned to appear [Section 113 (*a*)]. If they are numerous, the procedure laid down in Sections 20 (3) and 22 of the Land Revenue Act may be followed. Whether the parties are many or few, it is expedient to post up a proclamation on the village rest-house, or on some other conspicuous place in the village, calling on any persons who may have objections to urge to appear and state them within a certain time. The date fixed should usually be that on which the parties have been summoned to attend. The summonses and proclamations should be issued simultaneously.

Dates should not be frequently changed.

5. Dates should not be repeatedly changed because the parties have failed to appear. When the requirements of the law as regards the service of summonses have been complied with, and the revenue officer is satisfied that all interested parties have had an opportunity of appearing, he should proceed with the hearing on the date fixed. A note of the names of any parties who have not appeared should be put on the file. In cases in which the shareholders are numerous, or which are likely to present any difficulty, every endeavour should be made to hold the first hearing in or near the village in which the land is situated. The real points in dispute and the merits of any objections raised will in this way be much more easily and speedily brought to light and tested. Most of the delays and unsatisfactory decisions in partition cases result from following the opposite course.

Procedure when tahsíldár thinks application should be rejected under Sections 112 and 115.

6. The actual points in dispute having been elicited by a careful examination of the applicant and other interested parties, the tahsíldár should consider whether there is any good and sufficient cause why the application should be absolutely rejected (Sections 112 and 115). If he thinks that such a cause exists, he should at once report the case for the decision of the officer who referred it to him for inquiry. Revenue officers should remember that Section 112 of the Land Revenue Act gives them power to exclude from partition any common grazing land when they consider that its division "is likely to cause inconvenience to the co-sharers or other persons directly or indirectly interested therein or to diminish the utility thereof to those persons." Where pasture is scarce or likely to become so, it is often advisable to set aside part of the common land of a village or patti, for the partition of which application has been made, as a common grazing ground. Revenue officers have no authority to order the partition of "land which is occupied as the site of a town or village and is not assessed to land revenue" (Section 4 of Act XVII of 1887), and they have a discretionary power to refuse partition of such land even when it is assessed to land revenue [Section 112 (2 *c*)]. In Section 112 (2 *c*) "site" may fairly be held to include uncultivated land round a village occupied by enclosures for fodder or manure or used as standing ground for cattle. Revenue officers should also bear in mind that the discretion to disallow partitions vested in them by Section 115 should not be exercised arbitrarily, but ordinarily on the grounds set forth in Sections 111 and 112.

Procedure of tahsíldár when there are disputes as to title.

7. If the tahsíldár does not consider that there is any valid reason for rejecting the application entirely, but it appears that there are disputes as to title, which must be dealt with in the manner laid down in Section 117, he should record clearly what the points in issue are, and return the case for the orders of the officer who is competent to decide it. He must not himself take action under Section 117. Examples of disputes as to questions of title are—

(*a*) The respondent denies the correctness of the entry in the record of rights.

(*b*) The respondent admits the correctness of the entry in the record of rights, but asserts that the applicant is not in possession of his share, and is therefore, not entitled to claim partition at all, or that he is not entitled to do so till he has had a settlement of accounts with respondent.

Procedure of Assistant Collector of the 1st grade under Section 117.

Circ. 41, 1887.

8. The Assistant Collector of the 1st grade, on receiving back the file under the above circumstances, must determine whether he will refer the parties to a suit in a competent civil court, or will himself, as a Court, decide the questions of title under one or other of the procedures laid down in Section 117 [2 (*a*) and (*b*)]. The cases which involve action under this section may be divided broadly into two classes—first, those in which an applicant, believing that the partition proceeding will give him an advantage over the opposite party, has chosen that procedure in order to evade direct resort to the civil courts in respect of a question of title which he knows would be disputed; and secondly, those in which the applicant is acting in a straightforward manner, that is to say, in which a partition is really desired by him and is the principal matter in which he requires official assistance. In the class of cases first mentioned, the revenue officer should inform the applicant that, if he desires partition, he must first obtain a judgment in his favour on the disputed question of title from a civil court. In the latter class of cases, a revenue officer should exercise the jurisdiction vested in him by law, and should refrain from putting the parties to the trouble of separate proceedings in a civil court, even although the question is one which would ordinarily fall within the jurisdiction of such a court. When he stays proceedings until the question of title has been settled in a civil court, he should send the partition file to the record office and treat the case in the quarterly business returns as a decided one. If on the termination of the proceedings in the civil court, the applicant petitions to revive the partition case, the file will be restored to the register of pending cases and be re-

n the business returns as a new institution. If the revenue officer determines to hear the case himself, he should inform the party on whom the burden of proof rests that he should present by a certain date a plaint bearing the full stamp prescribed in the case of a civil or revenue suit regarding the question of title for decision, and that, if he fails to do so, the partition case will, if the party is the applicant, be struck off the pending file, and, if the party is the respondent, be proceeded with and decided. On a plaint being presented, he should record a brief note stating whether the question at issue is cognizable by a revenue court [Section 117 (2 *a*)], or by a civil court [Section 117 (2 *b*)], and consequently what his future procedure is intended to be. Although in case of appeal the appellate court would have to decide by what description of court the question was really cognizable, the note of the revenue officer will determine the course of appeal in the first instance, and thus save both litigants and the appellate court much trouble.

Circ. 32, 1889.

Enquiry as to method of partition.

9. If there are no disputes as to title, or if all such disputes have been decided under Section 117, and the case has been returned to him for report, the tahsíldár should proceed to enquire into any questions as to the property to be divided and the method to be followed in dividing it [Section 116 *b*]. A map of the land to be partitioned should be obtained from the patwári and a statement showing the area to be divided and the shares of the parties should be prepared. A specimen form of such a statement is given in Appendix A, but it may be modified to show further details when this is considered necessary.

Mode of partition and points to be noticed by tahsíldár in reporting on it.

10. In reporting the mode of partition for sanction, the tahsíldár should state clearly what are the points remaining for decision, and these points should be fully dealt with. The first matter to be dealt with is whether the applicant's share only will be separated off, the other co-sharers continuing to hold jointly, or whether all the shares will be divided. If there is any provision regulating partitions in the village administration paper, it should be referred to; if not, the absence of any such provision should be stated. It should be noted whether all the land is to be thrown into one account or whether different classes are to be distinguished. The distinction may consist in part being cultivated, part culturable waste, and part barren. Some land may be more valuable than the rest on account of its natural quality or its situation, or the existence of means of irrigation. Part may be mortgaged, or held by an occupancy tenant or by a tenant-at-will who cannot equitably be turned out. It will, as a rule, be quite impracticable to give every man his exact share of every sort of land, and the tahsíldár should set forth clearly how far deviations from the rule of equal proportions are to be allowed, and how men receiving inferior land are to be compensated by an increase in the area allotted to them or otherwise. It is impossible to settle every detail till the partition is actually made on the ground. Something must be left to the patwári, aided if necessary by arbitrators; but to order a partition, "*ba liház nákis wa kámil*," as is constantly done, is to throw everything into the patwári's hands. The extent to which existing possession will be respected must be noted. It should be maintained especially when it is of old standing, as far as this can equitably be done. If it is proposed to appoint arbitrators, the matters which they are to determine should be noted and also what remuneration, if any, they are to receive. The value of the land, for the purpose of calculating the stamp duty on the instrument of partition, the amount of the stamp duty and all fees and costs, and the proportion of the total costs to be borne by the different parties, should be mentioned, so that sanction to their recovery may be given. Where the land to be divided pays the full assessment, its value for the purpose of calculating the duty on the instrument of partition is deemed not to exceed five times the land revenue assessment. (Government of India, Separate Revenue Department, Notification No. 5855, dated 22nd November 1889, clause 5.) In the case of land which is not assessed, the value to be set forth in the instrument of partition, on which stamp duty will be charged under clause 37 of Schedule I annexed to Act I of 1879, is the market value.

Orders of Assistant Collector on method of partition to be fully and clearly recorded with his own hand.

11. On receiving the file from the tahsíldár, the officer empowered to decide the case should, if he finds that there is a dispute between the parties on any of the points connected with the proposed mode of partition, fix a date for hearing the case, and have the parties duly informed thereof so as to give them an opportunity of appearing before him. On the date so fixed, he should examine, so far as may appear necessary, any of the parties who may be present, and should then record with his own hand his orders as to the method of partition, the amount of costs, and the proportion in which they are to be recovered from the different parties. The orders as to the method of partition should be clear and unmistakeable, and care should be taken that every essential question raised by the tahsíldár's report, or contained in the pleadings, is decided.

Even in cases in which the tahsíldár has indicated alternative courses, and a decision is required between them, it is too common to find vague and general terms of sanction, such as—"the method of partition proposed by the tahsíldár is sanctioned." The case then be returned to the tahsíldár. Before taking any steps to carry out the partition the tahsíldár should direct the parties to deposit the whole amount of the costs in by a fixed date. If the money is not deposited within that period the case should be forwarded to the officer empowered to decide it for orders. If the applicant is earnest in desiring the partition he is often willing to pay in the whole costs, if the amount is not large, and the shares due from defaulters can ultimately under Section 98 (c) recovered as arrears of land revenue and made over to the applicant. But if it appears to the revenue officer that the applicant has paid in his share of the costs, but that the respondent, in order to delay the case, refuses or neglects to pay his share, he should order the amount due from the respondent to be at once recovered as an arrear of land revenue.

Circ. 41, 1880.

All sums received as costs will be credited in the sheriff's accounts and paid into the treasury, the number and date of the dákhila being noted under the tahsíldár's signature in the tahsíl register of partition cases (Revenue Circulars, page 803). Receipts for all disbursements will be put on the partition file.

Circ. 33, 1880.

12. If the partition is to be made by the patwári, the tahsíldár should give him on the spot if possible, detailed instructions from which he should not be allowed to deviate. As little as possible should be left to the patwári's discretion, and he should not be called on to decide how lands should be classified or as to their relative value. Points of this sort are for the parties to agree upon among themselves; if they cannot agree the tahsíldár must decide them himself. He may, however, appoint arbitrators to do so, if the parties desire it, and he thinks their appointment likely to lead to an equitable and speedy decision. The patwári should only be required to make a correct survey and record of the lands to be partitioned, and of the manner in which they have been divided. Measurements are necessary if numbers are broken up and in order to determine the proper boundaries of the joint fields, if they have been encroached upon to a serious extent by any of the shareholders. If the shares are equal and the particular parcels of land to be allotted to each shareholder are to be decided by lot, "*kuras*," in the form of *khatauni* slips, should be prepared for each share, the names being left blank. When the partition is completed the following papers must be drawn up by the patwári and put on the file:—

Method of carrying out partition.

Circ. 3, 1886.

(*a*) A tracing from the *shajra* showing the new field numbers. If the village has been measured on the square system, the square should be shown on the map and the position of the new numbers within the square should be correctly indicated.

(*b*) A *khatauni* showing the names of the shareholders, and a full list of fields allotted to each with their areas.

(*c*) A field book of all *new* fields.

(*d*) A statement showing in separate columns the area to which each shareholder was entitled according to his recorded share and the area which he has actually received. A specimen form (Appendix B) is annexed, but it may be modified to whatever extent appears desirable.

13. The employment of amíns to carry out partitions is forbidden. In the case of partitions of small joint holdings the patwári can do the survey and record work required without detriment to his ordinary work. When a large area, such as the common land of a village or *patti*, has to be divided, the patwári should be responsible for the partition, but if the work is heavy a qualified assistant may be appointed to help him in carrying on his ordinary duties, and the assistant's pay can be charged as part of the costs of the partition. The patwári himself should receive no extra remuneration for what is part of his proper duties.

Circ. 3, 1886.
Employment of amíns forbidden.

14. The papers filed in partition cases are often full of errors, which pass from them into the annual papers and are corrected with great difficulty when they come to light long afterwards in the course perhaps of a new settlement. The field kánúngo is as responsible for the accuracy of the patwári's partition work as he is for that of his ordinary work; and this responsibility should be rigorously enforced. He is bound to see that the patwári is carrying out exactly the instructions he has received, and that the work is being done regularly and in order. If not carefully supervised, patwárís spend far more time than they need on pa

Responsibility of field kánúngo for correctness of partition papers and for pointing out to each shareholder the land allotted to him.

cases. The map and *khatauni* should be tested and signed by the kánúngo. He must compare the map and *khatauni* with each other and with the village *shajra* and the last *jamabandi*, and see that no numbers are omitted and none entered twice. He must check the entries as to the dimensions and areas of fields as he would check similar entries in the patwári's map and field-book when remeasurement is going on. He should make the patwári take copies, and himself sign these in token of their agreement with the original. The kánúngo should then point out to the parties on the spot the lands allotted to each, making over at the same time to each shareholder a copy of the *khatauni* relating to his land attested by himself. In forwarding to the tahsíldár the map and the *khatauni*, which are to be filed with the record, he should report that he has pointed out the land and distributed the *khataunis* to the parties. Mud pillars should be put up to define boundaries where numbers are divided. At present, it often happens that, when the parties are asked by the tahsíldár if they agree to the partition, they answer that they do not know what land has been allotted to each. And cases have frequently occurred of a man being allotted one field in the *khatauni*, but in reality getting possession of another. The patwári following the partition papers records him as holding the latter field merely as a tenant-at-will, and the recorded proprietor may take out a notice of ejectment against him after he has been dealing with the land for years as full owner. It is, therefore, of the greatest importance that there should be no room left for misunderstanding as to the locality of each man's field or fields. In petty cases, the duty of pointing out his land to each shareholder may be entrusted to the patwári under a special order of the tahsíldár recorded on the file.

Attestation of partition before the tahsíldár.

15. On receiving the map and *khatauni* with the field kánúngo's report, the tahsíldár must give notice to all the parties to appear and state whether they agree to the partition or not. Repeated notices should not be issued to absentees, but, as soon as he is satisfied that all parties have had an opportunity of appearing, the tahsíldár should dispose of the case, making any modifications in the partition which are shown to be necessary, and correcting the *khatauni* accordingly. He should then send the case for sanction to the officer empowered to decide it. All corrections made by the tahsíldár should be communicated to the kánúngo and patwári. The former should point them out to the parties on the ground and correct their *khataunis*, and the latter should correct his copy of the *khatauni*. If the tahsíldár can arrange to collect the parties when he is in or near the village and dispose of objections on the spot, this stage of the proceedings will be shortened and much trouble be saved.

The instrument of partition.

16. When sanction has been received, any further correction in the papers which is rendered necessary by the order of the sanctioning officer must be made and communicated to the patwári and kánúngo and to the parties. The kánúngo should point out to the parties any changes in the allotment of land made under the order finally passed, and should correct their *khataunis*. After the period for appealing has elapsed without any appeal being lodged, or after any appeal that has been presented has been decided, an instrument of partition must be drawn upon stamped paper by the officer empowered to decide the case (Section 121). It should describe the claim and give a detail of the division effected with a reference to the order sanctioning it. The date on which the partition is to take effect must be noted. The form given in Appendix C may conveniently be followed. Before sending the case to the record room, the deciding officer should ascertain that the sums paid in as costs have all been disbursed, and that vouchers for the expenditure are on the file. If there is any balance, he should pass a distinct order as to the manner in which it is to be disposed of.

17. As a rule the parties will have no difficulty in obtaining possession of the lands allotted to them if the procedure laid down in paragraph 14 is carefully observed. But if any party to the proceedings is refused possession by another party he can at any time within three years from the date entered in the instrument as that from which it will take effect apply under Section 122 to the revenue officer to be put in possession.

18. As soon as may be after the date mentioned in the instrument of partition as that from which it will take effect, the patwári should enter in his mutation register all changes consequent on the partition. Before sanctioning any mutation due to partition the attesting officer must satisfy himself that possession has been obtained. In the case of uncultivated land it is not necessary that there should be any tangible sign of the possession of the person to whom the land has been allotted so long as no one else is in adverse possession.

District kánúngos and recordkeepers at the sadr not to be employed in checking partition files.
Circ. 23, 1888.

19. District kánúngos and record-keepers at the sadr should not be employed in checking partition files. All needful checking at the sadr can be done by the reader of the revenue officer who decides the case.

Employment of arbitrators.

20. Allusion has been made in paragraphs 10 and 12 to the employment of trators in partition cases. If the patwári is an exp and trustworthy man, it is rarely advisable to arbitrators, who cannot in any case prepare the partition papers without his help. tors nominated by the parties themselves are usually ignorant men, and each is ap the partizan of his own nominator. It will, therefore, generally be expedient for the dár to advise the appointment of some man of more standing as umpire. In fact, it best to appoint some man of influence in the neighbourhood, such as a zaildár or as sole arbitrator [Section 127 (2 *d*)]. The tahsíldár should carefully explain to trators what they are expected to do, and should arrange that the patwári gives assistance they require.

Inspecting officers should check unnecessary delay by examining partition files.

21. It is inevitable that complicated partition cases should remain pending considerable time. But, as a matter of fact, the ings are often unduly protracted, and the only check this is for inspecting officers to examine of pending cases and see for themselves whether any unnecessary delay has occurred.

Private partitions.

22. The above paragraphs apply to partitions effected by the order of officer. Private partitions can be affirmed by ant Collector of the 1st grade on application any of the parties under Section 123. Although no formal application under has been presented, the patwári is bound under Land Revenue Rules, Part I, to record voluntary partitions in the mutation register as soon as they have Orders can then be passed by any officer empowered, under Section 34 (4), to tions. But care must be taken not to treat as partitions of proprietory right which the parties did not intend to be permanent. Shareholders may be content have in their cultivating possession less than their full share of a common holding intending to give up any part of their rights of ownership. If before the any one of the shareholders objects to the record of the partition, it is advisable to sanction mutation of names, and to refer the parties who desire to have affirmed, to proceedings under Section 123 of the Land Revenue Act.

11. No structure should be erected on land under charge of the Public Works Department except with the approval of that Department. Further, where Government buidings under the charge of the Public Works Department are contained in any defined area or compound, whether such area or compound be nominally under the charge of the Public Works Department or not, no additions to such buildings, and no erections such as cook-houses, suitor-sheds, &c., shall be made in such area or compound without the assent of that Department being first obtained. Lastly, it has happened that permission accorded to a private person to erect a shed on Government land has resulted in a claim of proprietary right in that land. Such a result should be always guarded against when any building is erected by private enterprise upon land not definitely made over to the charge of the Public Works Department.

E.—THROUGH THE PUNJAB.

I.—If possible, not less than 15 days' notice is to be given to the District Officer of the quantity and description of carriage required. As in the Peshâwar, Râwalpindi, Mooltan and Derajat Divisions carts are either not procurable at all, or obtained with difficulty, requisitions for carriage submitted to any District Officer in these Divisions should invariably specify the number of camels that are required in case carts are not procurable.

II.—Requisitions for carriage should be in duplicate, and in the subjoined form.

Date.	Name of applicant.	Description of carriage.	Quantity.	From and to what place.	Probable date of arrival at the station at which carriage will be relieved.	Estimated amount of hire due for the journey.	Amount paid in advance.	REMARKS.
								NOTE.—Whether payable by the State or by individuals.

Form of certificate at foot.

I hereby promise to apply to the Deputy Commissioner of *(mentioning next relieving station)* for exchange carriage, and, in case of dispute, to pay any sum which the Deputy Commissioner of the relieving district may declare to be due on account of carriage hire.

(Sd.) A. B.

III.—Unless in cases of emergency, such as the breaking down of carriage, death of cattle, &c., carriage or camels are not to be exchanged, except at the principal stations along the road. Carriage will be relieved at Delhi, Karnál, Umballa, Hissar, Jullundur, Ferozepore, Amritsar, Lahore, Jhelum and Ráwalpindi. Regiments and detachments taking carriage at Jullundur and Ferozepore and proceeding north of Lahore, but which do not go west of the Chenab, may take the carriage obtained at the stations named to their destinations; if proceeding towards Mooltan, the carriage must be exchanged at Lahore. Regiments and detachments proceeding from Umballa to Ferozepore should have their carriage relieved at Ludhiána. In like manner, for troops going up-country from Umballa to Amritsar, a relief should be effected at Ludhiána but in this case it will be unnecessary to change the carriage again at Jullundur. For troops going down-country from Amritsar to Umballa, carriage will be relieved at Jullundur, and not at Ludhiána. Unless upon a certificate from the officer of the district where carriage ought to be changed that he cannot furnish a relief, carriage is not, without the written consent of the owners, to be taken beyond such station. The District Officer should report to the Commissioner each case in which he has declined to furnish a relief, assigning reasons for the same. The Commissioner will notice any cases in which the reasons are not satisfactory; for much of the hardship entailed under existing arrangements upon owners of cattle is owing to the rules regarding relief not being attended to.

IV.—Whenever carriage is engaged to any place, half the hire must be paid in advance. The Civil Officer furnishing the carriage is bound to see that this advance is made before the carriage is made over to the applicant. The Commanding Officer of a regiment or detachment, or the individual taking carriage, shall be held responsible for the full payment of the carriage being made on its reaching the destination agreed upon, as well as for securing to each owner payment of hire for halts and any demurrage that may be incurred. If under any circumstances a subordinate Civil Officer furnishes carriage without providing that the advance be paid, he is immediately to report the circumstance to his superior, on pain of being held personally responsible for the amount. The Civil Officer will report the circumstance direct to the Commanding Officer of the regiment, and provide that full payment be made to the person engaged.

V.—The authorized loads are as follows :—

	Description of carriage.	Load.		
		Pakka road in plains.	Kacha road	Hill road.

VI.—The system heretofore in force under which halts, back hire, and demurrage have been charged at half the fixed rates is to be abolished, and in future all carriage will be paid for at the rates hereinafter specified from the date on which it is taken up to the date of its discharge, both inclusive. If carriage is taken double marches, double rates must be paid for every such double march. For carriage employed in any part of the Punjab during the rainy season, or between the 1st of June and 1st of October, an additional charge will be made equivalent to 25 per cent. on the hire that would be leviable according to the subjoined rates.

VII.—The following rates of hire will be chargeable in the Punjab :—

IX.—Chowdries' fees are to be paid by the owners of carriage, and not by the employers. The rules and tables of rates should also be hung up in dák bungalows, sarais, tahsíls, thánas, and other public places.

XI.—The owners of carriage should be supplied with a copy of the requisition filled up in the English and Urdu characters. If any portion of the hire due is withheld, the presentation of this requisition to a Deputy Commissioner will enable him at once to enter upon the case, and adjudicate any dispute between the owners and employers of cattle. Not unfrequently from carriage breaking down on the line of march, it has to be relieved at othe than the fixed relieving stations. The official who supplies fresh carriage, or in whose jurisdiction fresh carriag is obtained, is responsible for adjudicating the claim of hire on account of the relieved carriage. In some cases it will be necessary to recover some portion of the half-hire advanced, and to make it over to the owners of the relieving carriage; in other cases to arrange for the payment of the balance of hire due up to the date of discharge.

XII.—Although these rules have been laid down for carriage supplied to troops, the rate prescribed, and the arrangements regarding written requisitions, relief, payment of half-hire in advance, &c., will be held applicable to all cases in which carriage is supplied by the Civil authorities on the requisition of Government Departments, or of officers and others travelling on the public service.

PUNJAB TEXT-BOOK COMMITTEE.

URDU SUB-COMMITTEE.

Proceedings of a meeting held in the Committee Room on Friday, the 10th of April 1891, at 4 P. M.

PRESENT :

J. Sime, Esquire, M. A., *in the Chair.*

Bábu Chandra Náth Mitra.

Lála Rám Kishen, *Registrar, Educational Department.*

W. Bell, Esquire, M. A., *Secretary.*

The Secretary read a letter from Munshi Umr-ud-dín, M.A., Head Master, Central Model School, Lahore, written in response to a request from the Director of Public Instruction that he would make suggestions for the revision and completion of the Punjab Series of Vernacular Readers. Of this series the Primer, and the First, Second, Third and Fourth Readers have already been prepared, but the scheme drawn up contemplates a Fifth, Sixth, Seventh and Eighth Readers. The Director had informed the Secretary that Colonel Holroyd had taken in hand the Fifth and Sixth Readers, and that the Fifth was almost ready.

After discussion it was resolved—

1. That as no better temporary arrangement seemed possible, the *Qasas-i-Hind*, Parts I and II, should be retained for the 4th Class until Colonel Holroyd's Fifth Reader is ready.

2. That the arrangement at present in force for the 5th Class should be continued in the meantime, especially as the *Guldasta-i-Tahzíb* had been carefully revised by the Committee.

3. That in accordance with the method adopted for the First and Second Readers of the Series, some poetical pieces should be included in the next editions of the Third and Fourth Readers,—these to be interspersed if the plates of these books have not yet been prepared, and appended in a body if the plates are already being made. These selections, about eight or ten in number, should occupy not more than twenty pages of printed matter in each volume, and the Secretary was directed to ask Mirza Abdul Ghani of the Municipal Board School, Ferozepore, to prepare them. They should be of a distinctly moral character, and at the same time interesting and attractive and such as could readily be committed to memory.

4. That the amount of poetry in the Second Reader should be increased by a few very simple additions—say of five or six pages,—Mirza Abdul Ghani to be asked to supply these.

5. That the consideration of the objection to the course of reading for the 3rd Class based on the amount of geographical reading required should be deferred, as the question would come before the approaching Educational Conference.

6. That the decision not to expunge all unmeaning combinations from the *Urau-ka-Qa'ida* should be adhered to; that those capable of indecent interpretation be struck out, and that, in view of the remarks of Lála Ságar Chand, those combinations be removed that are not considered absolutely essential.

7. That the additions prepared by Mirza Beg Khán should be accepted, but that they should not take the form of a second part of the Primer; they should be so arranged and interspersed that the two parts may together form one carefully graduated book.

8. That the numerical characters up to ten be inserted and about a page of numbers up to 100; also that the letters be given in their numerical order, with their numerical values (*abjad*).

9. That the Seventh Reader should follow the plan already accepted by the Committee for that book, and be prepared by Lála Jíya Rám, M.A., who should work with the Committee in the preparation of the book.

10. That the Eighth Reader should be an Agricultural Reader, and for this purpose Munshi Nathu Rám's book, or any other that might be put forward, should be carefully revised with reference to style and idiom.

11. That, as suggested by the President, a very elementary agricultural Reader should be prepared for the 5th Class of Zamíndárí Schools; that this should be of equal size and difficulty with the 4th Urdu Reader, and should deal in a very simple way with such matters as vegetable life, soils, irrigation, manuring, rotation of crops, &c., on the lines of Tanner's Elementary Works.

12. That the consideration of Urdu courses of reading for the 1st and 2nd Classes of Middle Schools be deferred until already existing text-books had been reported upon and compared.

Dr. M. A. Stein was unable to be present owing to another engagement.

In reply to a request from the Director of Public Instruction, Lála Munshi Lál, M.A., of the Normal School, Lahore, had submitted a report on the scheme of reading for Nagri

Schools for girls and had made a number of important suggestions. The meeting these, and at the same time compared the alternative text-books at present in use the following recommendations :—

1. *Infant Class.*—For this class the *Varna Dípika* should be revised and so as to form a sufficient course of reading by itself. The numbers up to 100 inserted, and simple moral tales to occupy about 20 pages; the whole book contain about 40 pages. The duty of revision to be undertaken by Pandit Bhanu D

2. *Lower Primary, 2nd Class.*—It was thought that the First and Second Readers (Punjab Series) of themselves formed a sufficient course, and that no p served by the present alternatives. It was decided therefore that these two Readers alone be retained without any alternative, but that the Second Reader should be correspond with the revised Second Urdu Reader. This revision to be under Pandit Bhanu Datt at once.

3. *Third Class.*—It was decided to omit the third and fourth Hindi Readers Provinces Series), *Srishtí ká varnan, Lakshmi Saraswati Sambád*, and *Bodhodaya* scheme, retaining only the following :—

Third and fourth Hindi Readers (Punjab Series).

Gyán Chálísí, until such time as poetical selections be added to the 3rd Urdu Readers as arranged and embodied in the Hindi edition.

Vidyánkur. Efforts should, however, be made to obtain the original edition of this work, instead of the present one which contains Pandit Bhanu Datt promised to procure one for the Committee.

4. *Upper Primary, Fourth Class.*—The course recommended for this includes—

Third Hindi Reader (Central Provinces Series), until the Punjab ready.

Gutka, Part I; but with the same proviso.

5. *Fifth Class.*—The course recommended for this class consists only of—

Fourth Hindi Reader (Central Provinces Series), until the Punjab ready.

6. It was further recommended that when the elementary agricultural which is intended for Zamíndárí Schools has been prepared in Urdu, it should be into Hindi.

7. It was also decided to recommend the first half of the *Bháska Bh* text-book of Grammar for the 4th Primary Class, and the second half for the 5th

8. *Middle School, First Class.*—The course of reading should consist of Parts I and II, and the text-book of Grammar should be either the *Bháshá Bh* *Bháshá Bhánu.*

9. *Middle School, Second Class.*—The suggestions made by Lála Munshi adopted, and it was decided that the poetical selections should be issued together Poetical Reader. The course would thus consist of—

2. Poetical Reader ... *Tulsi Krita Hindi Rámáyan. Ayodhyá Kánda.* — Comprising the first a few other pieces to be if found necessary.

PUNJAB TEXT-BOOK COMMITTEE.

ENGLISH SUB-COMMITTEE.

Proceedings at a meeting held in the Committee Room on Thursday, the 9th April 1891, at 4 P. M.

PRESENT:

J. Sime, Esquire, M. A., *in the Chair.*

F. Haden Cope, Esquire.

Lála Rám Kishen, *Registrar, Educational Department.*

W. Bell, Esquire, M. A., *Secretary.*

THE Secretary reported that communications had been received, through the Director of Public Instruction, from Inspectors of Schools in which they made suggestions for the improvement of the existing Punjab Series of English Readers. These communications were read to the meeting. The following are extracts:—

From Dr. C. R. Stülpnagel, Inspector of Schools, Lahore Circle.—"There is a concensus of opinion that the Punjab Series with a few exceptions is disliked owing to its comparative unsuitability, and it is generally stated that it would be desirable to have a revised or new series because the Readers published by Piáre Charn Sircar, which are now being mostly used in Board Schools, are not free from faults. In Mission Schools the C. V. E. S. Readers are generally in use, but though some of them are liked by the teachers, others are rightly considered difficult. . . . . . In my opinion not a single one of the teachers consulted has entirely grasped the chief deficiency of our Departmental Readers, and that of others employed in their place. The principal defect in our Readers lies in the fact that none of them have a bi-lingual basis. The Text-Book Committee when accepting an English Reader seem to have been satisfied when its arrangement and matter were generally good, but they appear to have entirely overlooked the fact that the books issued under their auspices are intended to teach English to boys whose mother tongue is not English nor a cognate language, but one totally different in structure and grammar. Thus, for instance, the last Departmental Reader (Mr. Robertson's) is an interesting selection of fairly suitable pieces which may be profitably used in our European Schools, but has taken no cognizance of difficulties to be encountered by native scholars and teachers when using it. Mr. Bell's Reader likewise, the best of the series, is written on a system which would make it more useful for European than Native schools in India." Dr. Stülpnagel also forwarded a memorandum by Lála Girdhári Lál, Municipal Board School, Gurdáspur.

From D. W. Thompson, Esquire, Inspector of Schools, Ráwalpindi Circle.—"All the schools use Piáre Charn Sircar's Series, together with Bell's Reader for Third Middle Class, except one school in which the Departmental series is used. The general opinion seems to be that Piáre Charn Sircar's Series is preferable to the Departmental Series inasmuch as the former is more interesting, better adapted to the feelings, ideas, etc., of the native boys and better graduated throughout all the steps from first to last . . . . . . My opinion is the following: It seems desirable that the Departmental Series should be revised in the manner suggested by Mr. Bell, if it is to be rendered more popular than it is. In the above revision one particular objection to be considered is that the stories in the present Departmental Series are as a rule far too long, and the boys are said to get quite tired of them before they are ended. I think it is a mistake to give Headmasters the option of choosing between two series."

From J. Harvey, Esquire, Inspector of Schools, Delhi Circle.—"I have the honor to report that the general opinion in this Circle is that if the English Readers of the Punjab Series are revised in such a way that they are properly graded and some very difficult por-

Paragraph 13, Punjab Government Resolution No. 73 of 21st March 1891.

14 A. The remarks in the following note by the Veterinary Surgeon to the Punjab Government regarding the grant of loans to zamíndárs to replace cattle which have died of rinderpest should be borne in mind by all officers engaged in making advances under Act XII of 1884:—

Takávi loans to the people are given in many districts with a view to assisting them to purchase bullocks to plough with, and in the event of the cattle having died off from famine it is a most useful help to them. When animals have died from rinderpest, however, a good deal of circumspection is necessary before this is done. The present system appears to be to advance money on loan to zamíndárs to buy cattle and to take no precautions. If a moment's thought be given to the matter it must be obvious that it is simply a waste of money, and that, instead of being an assistance to the unfortunate zamíndár, it makes his position worse than before. His cattle have died of rinderpest, he is given money and buys more, places them in the stable occupied by the former cattle, and from which in many cases the manure has not even been removed, and the result is exactly what we should expect. The cattle die, and in some cases this happens even before the plough they were destined to draw has been put into the ground. Cases have been met with in which loans have been taken twice and the cattle bought with both have died. It is not advisable to advance money for the purpose of purchasing cattle to replace those which have died of rinderpest unless the necessary disinfection has been carried out in the stables and the manure has been destroyed; for it must be remembered that the virus of this disease retains its vitality for at least a period of seven or eight months, and it is possible that in a country so favourable for its preservation as is that in many parts of the Himalayas for a longer period. When it is considered that all the discharges from the affected animal during its illness contain the poison of the disease in large quantity, as does also the carcase after death, it will be seen how extremely probable it must be that any fresh cattle brought into the place where these exist will succumb.

It would seem to be advisable, then, either to keep the village free from fresh cattle for a year or to have the necessary disinfection adopted.

PUNJAB TEXT-BOOK COMMITTEE.

GURMUKHI SUB-COMMITTEE.

Proceedings of a meeting held in the Committee Room on Wednesday, 29th April 1891, at 4 P. M.

PRESENT :

J. Sime, Esquire, M. A., *President.*
Bhái Gurmukh Singh, Oriental College.
Pandit Bhánu Datt, Municipal Board School, Lahore.
Lála Rám Kishen, *Registrar, Educational Department.*
W. Bell, Esquire, M. A., *Secretary.*

I.—The Secretary read a letter from Pandit Bhánu Datt, written in response to a request from the Director of Public Instruction that he would make suggestions for the revision and improvement of the existing courses of Gurmukhi reading.

After discussion it was resolved, with regard to Primary Schools for girls,—

(1). That for the 1st class, Infant Department, Bhái Charat Singh's *Gurmukhi Primer* be made alternative for the present with Bhái Hazára Singh's Primer, and that a special primer be prepared by the Department more suitable for an infant class than either of the above: also that Pandit Bhánu Datt be asked to do this. The Secretary was directed to ask Bhái Charat Singh to issue his Primer at a much lower price.

(2). That for the 2nd class, Lower Primary, the present course be retained, but that arrangements be made for issuing these books in a style uniform with that of the 3rd and 4th Punjabi Readers. The Secretary should address the Director of Public Instruction on this subject, in order that he may correspond with the translator, Bhái Sardúl Singh.

(3). That for the 3rd class, Lower Primary, the course for the present consist of the Third and Fourth Punjabi Readers and Parts I and II of the *Binai Pattrika*: when moral lessons are added to the Punjab readers the latter will of themselves be sufficient along with the new edition of the Gurmukhi Health Primer (*Asin Kikur Niroye Rahiye*) which it had been already decided to introduce.

(4). That for the 4th Class, Upper Primary, the course for the present consist of the *Ratan Mála* and the first five parts of the *Binai Pattrika*, as well as the Gurmukhi translation of the *Tariq-us-sihat* now under preparation. It was decided in view of the favourable opinions expressed that when Lála Rám Kishen has revised this Gurmukhi translation it should be sent to the press. When the 5th Urdu Reader has been translated into Gurmukhi it will replace the *Ratan Mála*.

(5). That for the 5th Class the *Guru Singh Itihás* be read for the present along with the *Binai Pattrika*, Parts VI—X; and that the 6th Urdu Reader, when it has been translated into Gurmukhi, should replace the Itihás. In addition a book on Domestic Economy should be prepared for this class, of a very simple character and introductory to the "Good House-Mother" of Mrs. Steel, similar to the small manuals used in English schools for the 'specific subject' of Domestic Economy: the Secretary was directed to offer by advertisement a reward of Rs 100 for the best manuscript submitted, if approved by the Committee. The book should not contain more than 50 pages of the size of an ordinary Departmental text-book in the vernacular. The manuscript may be submitted in Urdú, Hindi or Gurmukhi, because a book of this kind, it is thought, should be introduced into the 5th class of all girls' schools.

Notifications by Chief Court, Financial Commissioner, Accountant-General, &c.

CHIEF COURT.

The 29*th April* 1891.

Addenda et Corrigenda to Chief Court Circulars.

No. 2191 *G.*—For paragraph 14 of Book Circular No. XXI—4513 G., dated the 10th November 1890, substitute the following :—

14. *The fourth point mentioned in the preceding paragraph as having been brought to notice in carrying out the system of localizing the service of processes by tahsíls relates to the difficulty of transmitting the diet money and travelling expenses of witnesses, for delivery to the witness with the summons, when summonses are sent from one court to another for service. This difficulty will be removed by the adoption of the following arrangements which have received the sanction of the Local Government :—*

(a). *The Civil Názir at the head-quarters of the district and each Náib-Názir located at an outlying tahsíl, who is in charge of the process-serving arrangements of such tahsíl, will (on finding the proper security under the rules relating to that matter) be allowed a permanent advance of Rs.* 50, *from which the expenses of witnesses remitted under these rules will be drawn and sent to the witness with the process.*

NOTE.—The Accountant-General will show the total of the advances made in each district as advanced to the District Judge ; and the latter officer will be responsible that the advances are made to the proper officers and are duly accounted for by them to him.

(b). *The court issuing a summons for service by another court within the limits of the same district will cause its Názir or Náib-Názir to endorse on the back thereof the amount which is to be handed to the witness with such summons. The endorsement will be signed and dated by the Názir or Náib-Názir making it. On receipt of the summons at the court which has to serve it, the Názir or Náib-Názir will send the amount so endorsed, with the process to be served, to the witness by one of his process-servers, and will debit the Názir or Náib-Názir of the court of issue with the amount, and will, weekly or ... recover the amount from him by postal money order, ... ing the amount disbursed out of his permanent advance.*

(c). *The amount of commission paid on postal money orders ... the purposes of the preceding clause will be charged to judicial contingencies.*

NOTE.—The use of postal money orders for the purposes of these rules has been sanctioned as an experimental measure for one year. District Judges are requested to keep a careful account of the expenditure incurred on the "commission" paid for such orders, and to submit a return on 2nd January 1892 and again on the 1st May of that year, showing the monthly cost under this head during the year 1891 and the first four months of the year 1892 ... District Judges should see that proper budget provision to meet the charge is made in the ...

(d). *The permanent advance account should be checked and signed, ... once a month, by the presiding officer of the court to which the Názir or Náib-Názir receiving such permanent advance is attached; in the event of any delay in the adjustment of payments, such presiding officer should address the presiding officer of the court to which the defaulting Názir or Náib-Názir is attached direct, and ... unnecessary delay.*

2. Strike out the last sentence of paragraph 16 of the same Circular, beginning with the word "under" and ending with "district."

E. W. PARKER,

Registrar.

Add—

On the Bári Doáb Canal a system has been introduced by which the entries relating to irrigated crops are made by the canal patwárís in their khasras from time to time during the crop season. The attendance of village patwárís at crop measurements on that canal has therefore been dispensed with. If at the time of making his own girdáwari the village patwári is in doubt whether a crop is or is not canal-irrigated, he should find out what entry has been made with reference to that crop in the canal patwári's khasra.

PUNJAB TEXT-BOOK COMMITTEE.

ARABIC AND PERSIAN SUB-COMMITTEE.

Proceedings of a meeting held in the Committee Room on Friday, the 1st May 1891, at 4 P. M.

PRESENT:

J. Sime, Esquire, M. A., *in the Chair.*

Dr. M. A. Stein.

Maulavi Muhammad Dín, M. O. L.

Lála Rám Kishen, *Registrar, Educational Department.*

W. Bell, Esquire, M. A., *Secretary.*

1. The Director of Public Instruction had requested the Committee to consider whether Persian Grammar should be taught in Primary Schools, and, if so, whether the existing text-books were suitable.

(*a*). It was resolved that the *Sarf-o-Nahv* is unsuited to beginners, being far too difficult and detailed and that a very elementary Grammar should be prepared on modern lines, dealing only with Etymology (*i. e.*, the parts of speech and their inflexions). This would be sufficient for the 4th and 5th Primary Classes. It was decided to ask Munshi Umr-ud-dín, M. A., and Maulavi Muhammad Dín, M. O. L., to undertake the preparation of the book. It should not be larger than Douglas's *Introductory English Grammar*, and the compilers might refer to the *Persian Reader Series*, which had been submitted for patronage, for hints as to the style of book required.

(*b*). For Middle Schools the *Sarf-o-Nahv* would then be available: Chapter I for the 1st Class, the remainder for the 2nd Class, and revision of the whole and exercises, for the 3rd Class.

(*c*). The *Jamá-ul-Qawaid* should be used in High Schools and should be entered in the scheme of studies.

2. *Armaghán-i-Ahbáb* by Maulavi Muhammad Hussain. This is a useful though incomplete book of reference, and not suited in its present form for a place on the permanent List of Books for School Libraries. Nevertheless it deserves encouragement, and it was decided to purchase 250 copies, at a cost not exceeding Rs. 50. These should be distributed by districts to all Middle Schools, Vernacular and Anglo-Vernacular. The Sub-Committee suggested that the compiler should endeavour to make the compilation a complete and well-arranged book of reference to Persian literature.

3. *Muháwarát-ul-Arabiáh* by Mr. Prendergost. This book does not serve any of the Committee's purposes.

4. *Persian Reader Series* Nos. 1 and 2, published at the Education Society's Press, Bombay. These books were well reported on, but could not be utilised by the Committee.

BOOK CIRCULAR No. V—2171 G.

To

ALL CRIMINAL COURTS IN THE PUNJAB.

Dated Lahore, the 28*th April* 1891.

Arrangements existing between the British Government and the Kashmir State for the extradition of offenders. Government Circular on the subject.

THE attention of Criminal Courts is drawn to the following circular issued by the Punjab Government in regard to arrangements existing between the British Government and the Kashmir State for the extradition of offenders.

Paragraph 3 of Judicial Circular XLIII relating to Jammu and Kashmir cancelled.

2. Paragraph 3 of Circular XLIII of the volume of Judicial Circulars, so far as it relates to the State of Jammu and Kashmir, is hereby cancelled.

By order, &c.,

E. W. PARKER,
Registrar.

(Translated).

Circular No. 6-215, dated the 21st April 1891, from the Offg. Chief Secretary to the Government of the Punjab, to all Commissioners and Deputy Commissioners in the Punjab.

I AM desired by the Lieutenant-Governor to invite your attention to the Chief Court's Judicial Circular No. XLIII regarding the extradition of criminals and foreign jurisdiction, and in particular to that portion of it [part (c)] which sets forth the arrangements at present existing between the British Government and the Kashmir State.

2. A reference to this will show that the rules hitherto prevailing between State and the British Government are those contained in the Chief Com... vernacular proceeding of the 28th May, which were published for general in... at page 387 of the *Punjab Gazette* of December 25th, 1858, and a translation... will be found in part (*c*) of the circular above cited. The Government of India now abrogated the above-mentioned rules, and has instructed the Resident... His Highness the Maháraja that further reference to them is impracticable, and in future the Kashmir Darbár will be expected to comply with all requisitions by the British authorities for the extradition of persons charged with having... within British territory any of the offences specified in the schedules (as for the being constituted) of Act XXI of 1879 (Foreign Jurisdiction and Extradition... Henceforth, therefore, extradition cases with Kashmir will be governed by the... not by the Rules of 1856.

3. As regards the duties which under the Act devolve upon officers... *exercise of their magisterial functions*, separate and full instructions are, with the... tion of the Local Government, being issued simultaneously with this circular... Judges of the Chief Court. The object of this circular is to briefly indicate the... cedure to be followed in extradition matters by officers *in the exercise of their... functions*, occasion for the exercise of such functions only arising, it is to be... in cases in which extradition is sought *from* the Native State.

4. Thus as regards extradition from Kashmir to British territory, the K... authorities will, as already stated in paragraph 2, comply with all requisitions for extradition of persons charged with having committed in British territory... the offences specified in the schedule (as for the time being constituted) of Act XXI... Such requisitions should be sent by Deputy Commissioners to the Resident accom... by *primâ facie* evidence of criminality. But, although formal application for... must in each case be thus made to the Resident, it is not intended to stop compl... and others from taking steps to secure the immediate arrest of offenders in K... a preliminary to their extradition. The Kashmir authorities have acted hither... general accordance with the procedure which can be followed by our officers under... tions 15 and 16 of the Act, and British Police Officers and complainants are not pre... from following accused persons, as heretofore, into Kashmir territory and invoking... aid of the State officials for the arrest of the supposed offender pending the is... warrant for extradition by or through the Resident. Similarly, Deputy Commis... who have addressed to the Resident a requisition for extradition may, in cases... immediate arrest seems necessary, apply direct to the officers in charge of neigh... Kashmir districts for the preliminary arrest and detention of the accused pe... persons, for whose extradition the requisition has been submitted.

BOOK CIRCULAR No. VI—2172 G.

To

ALL CRIMINAL COURTS IN THE PUNJAB.

Dated Lahore, the 28th April 18..

THE Judges of the Chief Court consider it expedient to draw the atten... Magistrates and Criminal Courts in the Punjab... principal provisions of the law of procedure rela...

Extradition of offenders.

(1) the extradition of alleged offenders from British India;

(2) inquiries in British India into offences committed by British su... places beyond British India.

The former is contained in chapter IV of the Foreign Jurisdiction and Ex... Act, No. XXI of 1879, and the latter in sections 188-190 of the Code of Criminal Pr...

2. Chapter IV of Act XXI of 1879 contemplates three classes of procee... Magistrates, namely, (1) under section 12; (2... section 14; and (3) under section 15.

Classes of proceedings contemplated by chapter IV, explained.

It regards all persons as belonging to two classes, namely, (1) British subjects... non-British subjects or aliens, the former class being sub-divided under the two... European British subjects and Native Indian subjects of Her Majesty.

It contemplates all offences under two main divisions, namely, (1) offences specified in schedule II of the Act, and (2) offences not so specified.

Next it contemplates, in addition to judicial warrants, warrants of two kinds altogether different from the warrants issued by Magistrates in their judicial capacity, namely, warrants issued by a Political Agent under section 11, and warrants issued by the Supreme Government or the Local Government under section 14.

Lastly, chapter IV does not govern the procedure to be followed when the procedure is prescribed by any law or treaty for the time being in force.

Warrants which a Political Agent is empowered to issue under section 11.

3. The Judges will deal with the three classes of proceedings described in section 12, section 14 and section 15 of Act XXI of 1879, separately.

First as to proceedings under section 12. The warrant which a Political Agent is empowered to issue under section 11 can only be lawfully issued by him—

(1) in respect of an offence falling under schedule II of the Act as for the time being constituted, and

(2) in respect of such an offence when committed in the State for which the officer issuing it is Political Agent, and

(3) against a person who is either a Native Indian subject or an alien. It cannot be issued against a European British subject.

Section 12 enacts that the warrant may be addressed to the District Magistrate, and then provides for the execution of the warrant.

Duties of the District Magistrate in regard to the execution of a warrant sent to him by a Political Agent under section 11.

4. Section 12 contains no express directions as to the duty of the District Magistrate to whom a warrant under section 11 has been addressed, but it cannot be inferred from this that the District Magistrate is bound to execute any warrant that comes to him from a Political Agent, without any exercise of his own judgment upon it.

A District Magistrate would incur a grave responsibility if he should execute forthwith a warrant which upon the face of it was invalid, as, for instance, a warrant to arrest a European British subject for an offence not falling under schedule II of the Act and expressed to have been committed in British territory.

On the other hand, a District Magistrate failing to execute a warrant valid upon the face of it must be prepared to justify his conduct.

Another case that might occur is that of the accused person, when arrested, offering to prove to the District Magistrate that he is a European British subject and therefore not liable to process under section 11.

Magistrates not advised as to the manner in which they should exercise their judgment.

5. It is not within the scope of this circular to advise Magistrates how to conduct themselves in cases of the kind mentioned. It is sufficient to point out that cases may arise in which the District Magistrate will have to exercise his own judgment and in which direction his duty lies.

District Magistrate need not inquire into the truth of the accusation made against the person to be arrested.

6. At the same time, it is clear that the District Magistrate has no jurisdiction to inquire, either before or after making an arrest, into the truth of the accusation made against the person to be arrested under such warrant.

Procedure in regard to arrest.

7. As respects arrests, the warrant must be executed in the manner provided for execution of such warrants in chapter VI of the Code of Criminal Procedure, with the exception that there is no authority to admit the accused person to bail. After arrest the warrant is to be executed according to its tenor by forwarding the arrested person to the place and delivering him to the person named in the warrant.

Rules made by the Government of India referred to.

8. In this connection District Magistrates are referred to paragraph 11 of the Rules framed by the Government of India in Notification No. 31 J., dated the 12th March 1875 (Judicial Circular XLIII).

Proceedings under section 14.

9. Secondly as to proceedings under section 14.

The duty of a Magistrate under this section is to take action upon the order of the Government of India or a Local Government, to hold an inquiry into the truth of a particular accusation. It is to be observed that the power conferred upon the Government is not

restricted as regards persons or offences, to any particular class of either. It is sumed that the Government will have satisfied itself that all necessary conditions before it directs an inquiry by a Magistrate under this section.

Remarks as to the conduct of the Magistrate.

10. The second clause of section 14 gives clear directions as to the conduct Magistrate. By the last clause, section 189 of the nal Procedure Code is made applicable to the with the result that by directions of the Gove ordering the inquiry certain documentary evidence not admissible under the ordinary of evidence becomes admissible.

Magistrate to report, after inquiry, to the Government which directed him to hold it.

11. The inquiry is to be followed by a report by the Magistrate to the Gov which directed him to hold the inquiry. If action is found necessary by the Government, provides for the Government itself issuing a war the extradition of the accused person.

Proceedings under section 15.

12. Thirdly come proceedings under section 15.

In connection with this rule, the first point calling for notice is that the ju conferred is discretionary, to be exercised by the Magistrate "if he think fit."

As the jurisdiction extends only to cases in which (1) a Political Agent is to issue a warrant under section 11, or (2) a surrender can also be demanded the Government of India or a Local Government, the instances will probably be rare this discretionary jurisdiction should be exercised.

Object of the jurisdiction conferred by section 15 explained.

13. Magistrates should always bear in mind that the ultimate object of the tion conferred by this section is the surrender accused person for trial by some tribunal beyond of British India, and not by a tribunal in British

Offences committed by a Native subject of Her Majesty in any place beyond India, and offences committed by an European British subject in the dominions and States in India in alliance with Her Majesty, are, by section 188 of the Procedure Code, cognizable by the Criminal Courts of British India according to the tive powers under that Act, and subject to its provisions.

Over non-British subjects committing offences beyond the limits of British Criminal Courts of British India have no jurisdiction, except that conferred by This only empowers Magistrates to arrest, and, if so ordered by the Government a Local Government, to inquire into the truth of the accusation made.

Jurisdiction to be exercised by Magistrate over non-British subjects committing offences beyond the limits of British India.

14. In this last class of cases the discretion of the Magistrates may be ercised in assuming the jurisdiction conferred section; but in all other cases, that is cases subjects, the Magistrate will do well to consider whether he shall assume jurisdiction under or shall refer the person setting him in motion to a Political Agent or to the Local ment, or shall exercise the power conferred on him by section 188 of the Criminal Code.

Before assuming jurisdiction Magistrate to satisfy himself that one or other of the two conditions of his jurisdiction exists.

15. In any case, before assuming jurisdiction, the Magistrate ought to satisfy that one or other of the two conditions of his ju already mentioned in paragraph 12 above, exists addition to the information or complaint, should some evidence that the accusation is well found

Magistrate cannot detain accused person for more than two months from the date of his arrest.

16. Further, it is to be noticed that the Magistrate, if he takes action, warrant only, and that he must forthwith give of his action to a Political Agent or report his ings to the Local Government, as the case may be has power under section 17 to admit the accused person to bail in accordance provisions of the Code of Criminal Procedure; but has no power, after arrest, inquiry into the truth of the accusation, unless by order of the Government of India Local Government, and cannot of his own authority detain the accused person for two months from the date of his arrest.

Attention invited to sections 188, 189 and 190 of the Criminal Procedure Code.

17. Passing on now to the jurisdiction of the Criminal Courts to inquire India into offences committed by British places beyond British India, the important sections 188 and 189 of the Criminal Proce which replace sections 9 and 10 of Act XXI of 1879 as originally enacted, and which defines a Political Agent in relation to this jurisdiction, may be noticed

18. Section 188 of the Code runs as follows:—

Section 188 of the Code stated.

"When an European British subject commits an offence in the dominions of a Prince or State in India in alliance with Her Majesty, or

when a Native Indian subject of Her Majesty commits an offence at any place beyond the limits of British India,

he may be dealt with in respect of such offence as if it had been committed at any place within British India at which he may be found :

Provided that no charge as to any such offence shall be inquired into in British India unless the Political Agent, if there be one, for the territory in which the offence is alleged to have been committed, certifies that, in his opinion, the charge ought to be inquired into in British India :

Provided also that any proceedings taken against any person under this section which would be a bar to subsequent proceedings against such person for the same offence if such offence had been committed in British India shall be a bar to further proceedings against him under the Foreign Jurisdiction and Extradition Act, 1879 in respect of the same offence in any territory beyond the limits of British India."

Section 188 explained.

19. As has already been pointed out, this section covers some of the cases to which section 15 of Act XXI of 1879 is also applicable, but it also covers cases not falling under that section, and especially cases in which the extradition from foreign territory of an accused person, being a British subject, has already been procured, and he has been brought within the local jurisdiction of the Criminal Courts of British India.

Magistrate is competent to issue process in any case falling under section 188.

20. The first remark to be made on this section is that a Magistrate is competent to issue process in any case falling within it, without need for reference to any executive authority either within or beyond British India, subject, however, to the other provisions of the Code.

21. The first proviso to the section runs as follows:—

First proviso to section 188 re-stated.

"Provided that no charge as to any such offence shall be inquired into in British India unless the Political Agent, if there be one, for the territory in which the offence is alleged to have been committed, certifies that, in his opinion, the charge ought to be inquired into in British India."

Action to be taken under this proviso, explained.

22. Though this section does not, like section 15 of Act XXI of 1879, require the Magistrate to send immediate information to the Political Agent concerned, the Magistrate would act properly in any case, when the requisite certificate is not already before him, in either requiring the person setting him in motion to procure the certificate or himself sending an application for it to the Political Agent concerned; and in the meantime remanding the accused to custody, or, when the offence alleged is bailable, releasing him on bail, as the case may require.

Second proviso to section 188, explained.

23. The second proviso to section 188 is an extension of section 403 of the Code of Criminal Procedure as to previous acquittals and convictions, and needs no special comment in this place.

24. Section 189 contains a special rule of evidence for inquiries under section 188, and runs as follows:—

Section 189 contains a special rule of evidence for inquiries under section 188.

"Whenever any such offence as is referred to in section 188 is being inquired into or tried, the Local Government may, if it thinks fit, direct that copies of depositions made or exhibits produced before the Political Agent or a judicial officer in or for the territory in which such offence is alleged to have been committed shall be received as evidence by the court holding such inquiry or trial in any case in which such court might issue a commission for taking evidence as to the matters to which such depositions or exhibits relate."

Object of section 189 explained.

25. This section refers to inquiries and trials in British India. The object is to render admissible evidence taken before courts which are not Criminal Courts of British India, in order to supply evidence which might not be otherwise procurable. The cases in which a commission may issue, as stated in section 503 of the Criminal Procedure Code, are cases in which the examination of a witness is necessary for the ends of justice, and the attendance of such witness cannot be procured without an amount of delay, expense or inconvenience which under the circumstances of the case would be unreasonable.

Section 190 explained.

26. Section 190 of the Code defines a Political Agent in substantially the same terms as are employed in section 3 of Act XXI of 1879. A list of Political Agents for Native States bordering on the Punjab will be found in the extract marked (A) published in Judicial Circular No. XLIII (page 153), and may be usefully referred to in connection with proceedings either under chapter IV of Act XXI of 1879 or under section 188 of the Criminal Procedure Code.

27. These instructions are issued in connection with the orders contained in No. 6—215, dated the 21st April 1891, of the Punjab Government, which is republished in Book Circular No. 2171 G., dated the 28th April 1891, and have the approval of His Honor the Lieutenant-Governor of the Punjab.

These instructions are issued in connection with Punjab Government Circular No. 6—215, dated the 21st April 1891.

Circular No. XLIII of the volume of Judicial Circulars, third edition, should be referred to.

By order, &c.,

D. C. JOHNSTONE,

Junior Secretary to Financial Commissioner, Punjab.

The 29th May 1891.

No. 121.—*Notification.*—The following draft of rules under Section 46 of the Punjab Land Revenue Act, 1887, prepared by the Financial Commissioners in substitution for Rules 138 and 139, and 142 and 143 of the Rules published with Punjab Government Notification

No. 3, dated 1st March 1888, together with a Statement of Objects and Reasons for the same, is published for information, in accordance with the provisions of Section 156 of the said Act, and in accordance with Section 6 of the General Clauses Act, 1887, it is hereby notified that the draft will be taken into consideration after the 1st day of July 1891:—

Draft Rules.

For present rules 138-9 substitute rule—

138. For the purpose of inspection work and the attestation of mutations each tahsíl shall be divided between the Tahsíldár and Náib-Tahsíldár. This division shall be made by the Collector in July each year, and shall hold good for the agricultural year following. And in order to maintain the Tahsíldár's responsibility, the portion of the tahsíl allotted to the Náib-Tahsíldar shall be changed every year.

For present rules 142-3 substitute rule—

141. In order to avoid summoning agriculturists from their villages, all revenue work, especially disputed partition, lambardári and revenue-assignment cases should as far as possible be dealt with by the Tahsíldár or Náib-Tahsíldár at the village to which it relates. By this means the presence of all parties interested will be secured and the facts bearing on each case will be easily ascertained.

But when the mutation work of any tahsíl is so heavy that the Tahsíldár or Náib-Tahsíldár cannot visit each village where mutations require attestation at least once a year without prejudice to the due performance of his other duties, the Deputy Commissioner may, at his discretion, allow some relaxation of the above orders, and may from time to time fix such place or places as he considers conveniently situated within each patwári's circle for the attestation of mutations belonging to that circle. Civil cases should not ordinarily be set down for hearing on dates when a Tahsíldár or Náib-Tahsíldár is on tour.

Present rules 140, 141, 144, 145, will be numbered 139, 140, 142, and 143 respectively.

Statement of Reasons.

Experience has shown that full compliance with rules 138, 139, 142 and 143 is impossible. Their retention in their present form is therefore demoralizing to the subordinate revenue staff.

By order, &c.,

J. M. DOUIE,

Senior Secretary to Financial Commissioner, Punjab.

PUNJAB TEXT-BOOK COMMITTEE.

TECHNICAL SUB-COMMITTEE.

Proceedings of a meeting held in the Committee Room on Tuesday, the 20th May 1891, at 5 P. M.

Present:

J. Campbell Oman, Esquire, *in the Chair.*

F. Haden Cope, Esquire, Principal, Central Training College.

F. H. Andrews, Esquire, Officiating Principal, Mayo School of Art.

Lála Rám Kishen, Registrar, Educational Department.

W. Bell, Esquire, Secretary.

1. *Illustrations for the Fourth Urdu Reader.*—A series of illustrations for the Fourth Urdu Reader had been prepared in the Mayo School of Art and submitted by the Director of Public Instruction to the Committee. The Committee approved of the drawings, and thought them very creditably done. It was decided to correspond with the Surveyor-General of India, with a view to their being reproduced by photo-zincography. On receipt of his reply, Messrs. Oman and Andrews would be asked to submit a memorandum containing recommendations as to the best means of developing the Committee's facilities for producing illustrated text-books.

2. *Agricultural Education.*—The Director of Public Instruction had forwarded an extract from a memorandum prepared by him on the subject of agricultural education. The Sub-Committee approved of the Director's suggestions, and made the following recommendations:—

(*a*). That agriculture should be introduced in the zamíndári course for Normal Schools [see Punjab Education Code, Article 171 (5)]. Sufficient time could easily be allotted for this subject, and it seems desirable, before introducing a series of agricultural text-books, to provide for the supply of teachers.

(*b*). That steps should be taken to secure the recognition of agriculture as an optional subject in the Middle School Examination, and ultimately in the Entrance Examination of the Punjab University. It would be an inducement to candidates to study this subject if preference were given, in making appointments to tahsíldárships and similar offices, to those who had studied agriculture.

3. *Text-book of Mechanical Powers.*—A letter from Professor Oman had been forwarded by the Director of Public Instruction, drawing attention to the want of a text-book of "The Mechanical Powers," which formed part of the course in Physical Science prescribed for the Entrance Examination. Lála Ruchi Rám, Assistant Professor in the Government College, had prepared a small text-book and was willing to submit it to the Committee if encouraged to do so. It was decided that as the book is urgently required Lála Ruchi Rám should be asked to submit the manuscript without delay. At the same time he should be asked to arrange for the manufacture of a set of models to be used along with the text-books and to place these before the Sub-Committee along with an estimate of their cost.

4. *Transliteration of technical terms.*—In view of the diversity of opinion in the replies received from the officers consulted on this subject, it was decided that the provisional lists prepared by Lála Jiya Rám should be printed and circulated: the alternatives proposed should be given in the lists, and members should be asked to state in each case whether a term should, in their opinion, be given in English character only, in Vernacular character only, or in both.

5. *Agricultural Primer*: by Munshi Nathu Rám.—The Secretary reported that in view of the opinions received on the style and language of this book, he had returned it to the Director of Public Instruction, with a request that the author be asked to revise it. The Sub-Committee approved the Secretary's action.

6. *Elementary Mensuration*: by the Revd. Father Lawrence Macarthy.—As this was not superior to the book already in use, it was not recommended.

7. *Guldasta-i-Zirá'at*: by Lála Shankar Dás, Varma.—The following is an extract from a report on the book by Mr E. B. Francis, C. S.—"Whether agriculture should be taught from a book at all in zamíndári schools (for which this book is said to be specially intended) may perhaps be doubted. It seems rather a waste of the little time which the peasant boy will spend in the school to make him read what he either already knows, or can at least hear from any of his elders in his village by word of mouth. But if we are to have an agricultural primer for these schools and if it must be confined, or nearly so, for the present, to agriculture as actually practised in the Punjab, this little book, with its moral maxims, would, somewhat revised, not be a bad one. I do not, however, think it is equal as a practical guide to Munshi Nathu Rám's manual which Government has agreed to print and which probably is, or will be, before the Committee."

It was decided to obtain further reports on the language of the book, and, if this be found suitable, to recommend that the book be read in the 5th Class of zamíndári schools until the proposed text-book for that class is ready. The cost of the book should, however, be reduced to one anna and a half, the quality of the paper used and the style of printing remaining to be as good as in the specimen submitted to the meeting.

8. *Illustrated Primary Arithmetic*: by the Revd. Allan J. Maxwell.—This book has been compiled with great care and judgment, but is not suited to the Committee's purposes.

9. *Euclid, Books I and II*: edited by Atma Rám, B. A., Head Master, Government High School, Muthra.—Two editions, English and Vernacular, were submitted, and not being superior to the books already in use, both were rejected.

10. *Suggestions by Lála Amír Chand* of Bhera.—His suggestions regarding the teaching of Roman Urdu have been anticipated by the Educational Conference, and those regarding the Urdu Primer by the Director and the Text-Book Committee. It was decided, however, to send the manuscript of a Primer, as prepared by him, to the Central Training College for report.
